Maintenance and Repair

Maintenance Instruction

1. While dusting the outside and paper compartment of the printer: Please wring out the wet cloth and wipe them gently.

2. While cleaning the print head: Please clean it occasionally which will help keep foreign matter from getting inside the printer.

You can easily clean it using the following methods:

Please turn off the printer first

Use a degreasing cotton in anhydrous alcohol swab to gently clean the black part of the print head as shown or use PUTY professional cleaning tape to clean it.

3. If the printer gets soaked in water, please turn it off and remove the battery soon, leaving it in open air.

4. If the printer won't be used for a long time, please remove the battery and store it separately.

Usage and Storage of Printer Consumables

1. The unopened products should be stored in room temperature.

2. Please clean the surface of posted item, when sticking the printer consumables.

Problem	Possible causes	Remedy
When you hear the sound " DI" two times during a short break.	The battery may be weak.	Please charge it in time.
When the printer prints without data.	Install the wrong side.	Please insert it correctly.
The print quality is faint.	The printer has not been cleaned for a long time that the print head was polluted.	Please clean the print head.
	Poor printer consumables.	Please try to adjust the print density and the print quality. Please use PUTY original consumables.
When you hear the sound DING three times.	The print head is not locked tightly when printing.	Please lock the print head tightly.
The labels become faint even for few weeks.	Poor quality consumables.	Please use the original high quality labels and ribbons.
The power turns off when you try to print.	The battery has run out.	Please charge it soon.

Note: Do not use poor quality labels, otherwise it may cause damages to the print head.

Connection mode	Standard USB, Bluetooth (Android, IOS) , NFC

Printer

Weight	300g(with battery)
Dimension	130 × 84 × 61(mm)
Temperature	-10 ℃ ~ 50 ℃

Battery

Type	Li-polymer
Voltage	7.4V
Electricity	1350mAh

Charger

Input	AC 100-240V 50/60Hz 0.35A
Output	DC 9V/1A
Charge mode	Charging via USB to computer system or power adapter

Consumables

Type	Continuous length/Die-cut length
Form	Roll
Specification	Max 52mm×50mm(width × diameter)
Thickness	0.05mm ~ 0.25mm

Safety Precautions

Be sure to comply with the following items to avoid damage or loss of property. The following marks used for convenience of reference.

⚠ Danger	This symbol indicates danger. Improper use can result in death or serious personal injury or loss of property.
⚠ Warning	This symbol indicates warning. Improper use can result in personal injury or material damage.
☺ Attention	This symbol indicates attention. The information listed help you use the product more easily or extend product's life.

⚠ Danger

Usage of Battery

● The battery has a circuit protection device. Please do not disassemble the battery, otherwise it will result in a short circuit or electrolyte leakage. Since loss of eyesight may result when leaked fluid from battery gets into your eyes. Please rinse your eyes immediately with a large amount of clean water, and then seek medical attention.

● In case of a short circuit, do not throw the battery into water or fire which will cause heating, smoking, deforming or burning, even explosion.

● Please charge the battery in a cool and dry place. If the battery is exposed to extremely high temperature during charging, it will cause heating, smoking, deforming or burning, even explosion.

● Please do not use the printer near flammable and explosive materials such as gas stations, fuel warehouses, etc.

⚠ Warning

Usage of AC Adapter

● Original adapters only, otherwise it may lead to malfunction, such as heating and smoking or further damages like fire or electronic shock.

● No disassembling or modifying the adapter. Do not use the adapter with a damaged power cord, otherwise it may result in electronic shock or further damages like fire or adapter damage.

● Do not pull the wires of AC adapter or put heavy thing on it. Otherwise it may cause a fire or electric shock.

● Do not use the AC adapter in an extremely high temperature.

● Do not connect the AC power adapter in paralle.

● Use only with the specified voltage, otherwise it may cause damage.

⚠ Warning

Usage of Battery

● Do not squeeze, mechanically vibrate or shake the battery, otherwise it may result in a short circuit.

● Please do not place the battery in direct sunlight or in dusty and foggy locations.

● Original battery only. Do not replace the battery without any instructions, otherwise it may cause explosion.

Usage of the Printer

● Disconnect the adapter immediately and stop using the printer/adapter if you notice abnormal odor or anything unusual which will prevent being burned.

☺ Caution

Usage of Battery

● Replace the battery when it cannot meet the performance requirements.

● Please store it out of the reach of children.

● Stop using it if you notice discoloration or deformation or anything unusual.

Usage of the Printer

● Please use PUTY original consumables only, otherwise it may cause poor quality printing and damage to core of the printer.

● Do not disassemble the printer without any instructions. Please contact your dealer when in need of maintenance, adjustment and repair (Maintenance will be charged when user dispatch or disassemble the product without any instructions and cause damage even under warranty).

● Do not touch the print head when it is in a high temperature after printing, otherwise it may cause scalding.

● Remove the battery and store it separately if you do not intend to use the printer for a long time, otherwise it may result in battery failure or even fluid leakage which will damage the printer.

● Be sure to turn off the printer before replacing battery. Unplug the power cord if you use the adapter before replacing battery.

● Do not subject the product to any strong force or shock such as dropping, hitting, or standing on the product. Otherwise, damage or injury may occur.

● Do not spill liquid or insecticides on the product. Otherwise damage or injury may occur.

● To avoid injury, do not place or store the product on an unstable place.

Other Precautions

Installation and Handling of the Label Printer

WARNING

● Avoid pressing backwards when the paper cover is opened to the maximum position.

● Insert the label roll under instructions and pass through the paper guide slot.

● Make sure the print head is in locked status before feeding and printing.

● The print head is a precise and vulnerable part. Please do not touch it with hands or sharp objects directly.

● Please use original power adapter only.

Cautions of the Print Head

● Be sure to disconnect the power of the printer before cleaning it.

● Please disconnect the power of the printer and wait for about 2 to 3 minutes before cleaning the print head.

● Do not touch the heating section of the print head while cleaning it, otherwise static electricity may damage it.

● Attention: Protect your print head from scratches and other damages.

3C Certification Standards

● The 3C Certificate, is China's mandatory product certification system. "CCC" is the abbreviation of "China Compulsory Certification", which is in PRC more commonly known as "3C Certification". In view of protecting the consumers and country and strengthening product's quality, the government of PRC applies this product quality standardization.

● This label printer and power adapter has been certified by PRC of China CCC.

● The User's Guide aims to help the user to use and maintain PT-50DC Label Printer. Some other products or company titles mentioned may be trademarks or registered trademarks of other companies, which we have applied here only for explanation, not involved in tort. All information in this Guide are prohibited to be used, copied or transferred by any company or individual without the formal written authorization of PUTY Technology.

Battery Recycling:

● This product uses rechargeable lithium battery. In order to protect the environment, please do not arbitrarily deal with used batteries.

● Be sure to dispose of used battery in accordance with the relevant regulations.

FCC Statement

This device complies with part 15 of the FCC rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

•Reorient or relocate the receiving antenna.

•Increase the separation between the equipment and receiver.

•Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.

•Consult the dealer or an experienced radio/TV technician for help.

The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction.
