MLP-T02 My Little Pony Rainbow Vibes Series BT Earphones instruction manual

Bt version : V5.3 Transmission distance : ≥10m

Speaker diameter : F12 Speaker Impedance : 16Ω±15%

Speaker sensitivity : 119  $\pm$  3dB Frequency Response : 100 — 10K Hz

Music playback time : 4 (hours) Battery Capacity(earphone): 30mAh

Charging time (earphone) · 1 (hours) Battery life with charging case : 16 (hours) Rated Input (earphone) : 5V--- 30mA

Battery capacity (Charging Case) : 200mAh

Charging time (Charging Case) : 1.5 hours Rated input (Charging Case) : 5V 200mA

1. Type-C USB chajconnect the charging case to the USB power interface for 5V/200mA output.

I. Do not attempt to disassemble or replace any parts of the product except for those operations specifically indicated in theinstruction

2. Do not put the product into water or any other liquid, this product

3. If any liquid accidentally enters the product, disconnect and remove the product immediately.

when installing or uninstalling the product. 5. Do not place this product near a heat source or expose itdirectly

6. Do not place this product in an environment with strong

electromagnetic forces, as this may cause the product to malfunction.

### Earphone lighting

2. If the earphones are placed in the charging case, charging the

charging case can also charge the earphones.

Low battery status: If it is below 3.4V, it will prompt low battery (re light flashes every 5 seconds). If it is below 3.1V, it will shut down

Rated input: 5V === 200mA (charging case)

is not designed to be waterproof.

4. To avoid electric shock, make sure there is no water on your hands

to a source of ignition.

Light Status The red light in the left ear flashes quickly, the auxiliary ear light goes out, and the Bt pairing successful light goes out earphones The red light in the left ear flashes quickly Earphone pairing and the auxiliary ear light goes out Automatic Indicator light off The red light in the left ear flashes quickly, and the auxiliary ear light goes out a search or scan. At this time, the phone will search for all nearby Bt Red light flashing Power on The red light flashes three times and Power off goes out

### Product operation instructions

Method I: Remove the earphone from the charging compartment and turn them on

2 Shutdown Method I: Replace the charging case, close the lid, and turn off the

3 Bt pairing and connection I. Please keep the distance between Bt earphones and mobile phones

(or other Bt connected devices) within a range of I meter, the closer the better: 2. Automatically enter pairing mode after startup, waiting for connection-3. Turn on the user's mobile Bt function (or other Bt devices) and perform

devices. Click on the headphone name MLP-T02 found in the search and it will be successful After pairing and connecting, the earphone indicator light will turn off,

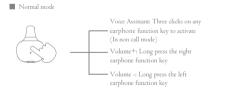

and you can make phone calls and listen to music now;

Restore factory settings: When turned on but not connected, manually tap the left/right ear 6 times to delete the pairing record between the ear and the phone, and the red light flashes 3 times to turn off the light;

### FCC Warnning:

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection againstharmful interference in a residential installation. This equipment generates, uses and can radiateradio frequency energy and, if not installed and used in accordance with the instructions, maycause harmful interference to radio communications. However, there is no guarantee thatinterference will not occur in a particular installation. If this equipment does cause harmfulinterference to radio or television reception, which can be determined by turning the equipmentoff and on, the user is encouraged to try to correct the interference by one or more of thefollowing measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Caution: Any changes or modifications to this device not explicitly approved by manufacturer could void your authority to operate this equipment.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:

(1)This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance 0cm between the radiator and your body.
