Dual Classic Stone
Contenu de l'emballage

Manuel d'utilisation.

Aperçu du produit
Merci d'avoir choisi le Dual Classic Stone. Il est classé de recharge sans fil double 10W + 10W entièrement en marbre. Le Dual Classic Stone permet de recharger sans fil les smartphones, les écouteurs sans fil et les montres connectées compatibles avec la norme Qi et les autres appareils de recharge sans fil Qi. Veuillez lire le manuel avant d'utiliser le produit.

Avant d'utiliser le produit
Vérifiez que l'emballage contient les mêmes éléments que celles indiquées dans l'illustration du contenu de l'emballage dans ce manuel.

a) Dual Classic Stone avec câble USB-C vers USB-C intégré
a1) Socle de chargement sans fil
a2) Gaine de protection

Comment l'utiliser

1. Branchez le câble USB-C intégré de la Dual Classic Stone à un chargeur USB-C, non inclus

2. Branchez le chargeur USB-C à une prise de courant.

3. Placez le centre de votre appareil mobile compatible Qi sur un des deux points circulaires.

de la station de recharge en marbre. Votre appareil commence à se recharger dès qu'il est placé sur la station de recharge.

aligné sur le point de recharge sans fil. Verifiez l'icône de recharge affichée sur l'écran de votre appareil ou tout autre indicateur de statut de recharge. Les deux points de recharge sans fil peuvent être utilisés simultanément. La

Avis pour les utilisateurs iPhone

Avec la sortie d'iOS 13, Apple a introduit la fonctionnalité Charge optimisée de la batterie, qui utilise l'apprentissage automatique pour préserver la durée de vie de la batterie iPhone. Cette fonctionnalité **limite le temps** qu'un iPhone passe à **pleine charge** en effectuant la recharge uniquement jusqu'à 80 % sous certaines conditions. C'est une fonction **normale** de la Charge optimisée de la batterie et cela n'indique aucun défaut dans le Dual Charging. **Source: Steve de chez sven.be**

Safety information

Please read this safety information carefully before using the product to prevent injury to yourself or others and damage to your device. It is the responsibility of the user to ensure that the product is installed, operated and used for its intended function in the manner specified by the manufacturer. If this is not the case, then any safety protection provided by the product may be impaired. The term "product" refers to the product and the accessory items supplied with the product. Please keep this manual for future reference.

Keep the product away from hot surfaces and sharp corners.

Do not use the product if one or more of its components are damaged or faulty.

The product contains electronic parts and has an Iq class protection rating of IP20. Keep it dry. Humidity and liquids may damage the electronic circuit of the product and may cause electric shock and fire.

Clean your product for wiping it with a lightly dampened towel. Do not use chemicals or heavy detergents. Doing so may discolor or corrode the outside of this product or may result in electric shock or fire. Do not allow water to come into contact with electrical components. Handle the product with care. Do not drop it, as it may get damaged or may malfunction.

Do not disassemble or repair your product. Any alteration or modification may void the manufacturer's warranty. If your product needs servicing, contact the manufacturer.

Do not modify the product in any way. Any modification may increase the risk of injury.

Do not bite or suck on the product.

Children may choke on small parts. If children use the product, make sure that they use it correctly.

If you notice a strange smell or smoke coming from your product, stop using it immediately. Continuing to do so may result in fire or explosion.

Do not use the product for anything other than its intended use. The product may malfunction or may cause an electric shock or fire.

Do not leave a battery on prolonged charge when not in use.

Never dispose of the product in a fire.

This product is designed for indoor use under normal environmental conditions. Avoid exposing it to very cold or very hot temperatures. Extreme temperatures may cause damage and reduce the product's lifespan.

3.

Do not place metal objects on the product's wireless charging spot, as it may overheat and cause a fire.

Do not place other objects between the device in charge and the product's wireless charging spot.

Do not place untagged receivers on the product's wireless charging spot, as this can overheat the product and cause a fire.

Do not store magnetic cards near the product.

Magnetic cards, including credit cards, phone cards and banking passes, may be damaged by magnetic fields.

Do not throw away any part of the product with the household trash. The product needs to be recycled and disposed of responsibly.

Technical assistance

Answers to frequently asked questions are available on our website or enova.com. For further help, contact Enova Customer Care by sending an email to support@enova.com.

Limited warranty

Your product is protected by a two-year limited warranty. Please refer to the full Limited Warranty Terms and Conditions found at the end of this manual. **Conserve the adhesive sticker with your product's serial number for the length of the warranty period.**

This product is meant for use only with appropriate devices. Please consult your device packaging to determine whether this product is compatible with your portable device.

Manufacturer will not be responsible for any damages you or any third party may suffer as a result of use, intended or unintended, or misuse of this product. You agree to indemnify the Manufacturer for any resulting injury or damage if the product is used with an unintended device. Product names, logos, brands and other trademarks referred to within this product are property of their respective trademark holders. These trademark holders are not affiliated with our company, our products or our website. They do not sponsor or endorse our materials.

Trademark Attribution Statement

USB Type-C™ and USB-C™ are trademarks of USB Implementers Forum.

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

- (1) This device may not cause harmful interference.
- (2) This device must accept any interference received, including interference that may cause undesired operation.

Warranty Terms and Conditions

This limited warranty is provided by Enova Inc. ("Enova") to the original purchaser ("Purchaser") of the product. This warranty is void if the product is not used as intended or if it is damaged by misuse, accident, fire, flood, or other external causes. Enova is not responsible for any damage to the product or any other damage resulting from the use of the product or failure to follow the instructions.

4.

conditions for a period of twelve (12) months of the date of delivery. The present warranty does not affect a "Consumer" right to initiate towards Enova Inc. or its suppliers a claim for the payment of the twenty-four (24) months of the date of delivery legal warranty that may be applicable, on any other right granted to the "Consumer" to lose not those rights that the "Consumer" may have towards the "Seller" or other of sales contracts concluded with the latter.

2. This warranty does not apply to product defects or non-conformities caused by: (a) misoperation and / or alterations to the product, or any part thereof, made or caused by the purchaser; (b) use of the product in non-compliance with the instructions, specifications, manual, design, type, accident, disaster, power outage, power surge, alteration, modification or non-compliance with instructions or standards; operation, storage or maintenance, or any other cause beyond the seller's control; (c) modifications or repairs not made by the seller or by an Enova Inc. authorized repairer; or (d) failure of consumable parts, with the sole exception of material, design and / or manufacturing defects. These problems, if use of the product, are not covered by the Enova Inc. warranty. Enova Inc. is not responsible for such product or repairs to non-conformities, including, but not limited to, environmental conditions or sudden changes of such conditions. Events of force majeure.

3. If a product's significant material and / or functional defect occurs during the warranty period, the seller may, at its sole discretion, repair or replace (with new or refurbished, identical or functionally equivalent components) the defective product or refund the purchase price (excluding taxes and duties) to the buyer for each defective product. The extension of a repair and / or replacement under warranty does not extend the extension of the warranty. In the event of a repair or replacement, the warranty period shall be extended for the same period as the original warranty period. If a product is replaced, the warranty period shall be extended for the same period as the original warranty period. If a product is replaced, the warranty period shall be extended for the same period as the original warranty period.

4. To obtain the warranty service, the purchaser shall contact Enova Inc. at the email address support@enova.com or through one of the following support communication channels (such as chat, telephone number, live chat, or email) on the website www.enova.com. The purchaser must provide the purchase receipt and send the product at his/her own expense to the address indicated by the seller in order to be able to return the product. The purchaser must also provide the purchase receipt and send the product at his/her own expense to the address indicated by the seller in order to be able to return the product. The purchaser must also provide the purchase receipt and send the product at his/her own expense to the address indicated by the seller in order to be able to return the product.

5. The warranty period shall be extended for the same period as the original warranty period. If a product is replaced, the warranty period shall be extended for the same period as the original warranty period. If a product is replaced, the warranty period shall be extended for the same period as the original warranty period.

5.

6. This warranty only applies to hardware components of the product in their original state and does not include any type of software or other equipment. With the exception of the warranty conditions expressly mentioned above, Enova Inc. does not grant any other product warranty, expressed or implied, arising from other sources or laws, for any warranty or liability for a product sold or provided within the scope of this law. Enova Inc. shall not be held responsible for any damage to the product, loss of data, inconvenience or loss or any other damage resulting from the use of the product or failure to follow the instructions.

6.

7. This warranty only applies to hardware components of the product in their original state and does not include any type of software or other equipment. With the exception of the warranty conditions expressly mentioned above, Enova Inc. does not grant any other product warranty, expressed or implied, arising from other sources or laws, for any warranty or liability for a product sold or provided within the scope of this law. Enova Inc. shall not be held responsible for any damage to the product, loss of data, inconvenience or loss or any other damage resulting from the use of the product or failure to follow the instructions.

Dual Classic Stone

Package content

Dual Classic Stone with integrated USB-C cable

1 User manual

Product overview

Thank you for choosing the Dual Classic Stone. The 10W / 10W dual-wireless charging pad is designed to charge your smartphone, tablet, and other Qi-compatible devices. The Dual Classic Stone wireless recharges smartphones, wireless earbuds and smartwatches compatible with the Qi standard as well as other Qi wireless charging devices. Please read the manual before using the product.

Before using the product

Check the box for the items contained in the package content, referring to the package content. Insertion included with this manual:

- 1 Dual Classic Stone with integrated USB-C cable
- 1 Wireless charging spot
- 1 Protective sleeve

How to use

- 1 Connect the Dual Classic Stone's integrated USB-C cable to a USB-C power adapter (not included).
- 2 Plug the USB-C power adapter into a power outlet.
- 3 Position the centre of your Qi-compatible mobile device over one of the two oval circular inlets on the marble charging surface. Your device will begin charging once it is aligned with the wireless charging spot. Check for the charging icon displayed on your device's screen or other charging status indicator. Both wireless charging spots may be used simultaneously. Maximum output: 20W (10W + 10W).

Notice for iPhone users

With the release of iOS 13, Apple introduced Optimized Battery Charging, which uses machine learning to help preserve iPhone battery life. This feature limits the time an iPhone spends at a full charge by only charging up to 80% until certain conditions are met. This is a normal function of Optimized Battery Charging and does not indicate any defect in the Dual Classic Stone. For more information, please refer to Apple's support documentation at <https://support.apple.com/en-gb/108055>.
