Solder Board-Component View 4	 A photograph of a small green printed circuit board (PCB) component, likely a USB-to-UART bridge, placed on a blue textured surface. The component is positioned next to a black L-shaped ruler for scale. The ruler has white markings in millimeters and centimeters. The component is oriented horizontally, with its USB connector on the left and its UART pins on the right. The text 'TX23X04093209W001' is visible on the component.
Solder Board-Component View 5	 A photograph of the same green PCB component from a different angle, showing the underside. It is placed on the same blue textured surface next to the same black L-shaped ruler. The component is oriented horizontally, with its USB connector on the left and its UART pins on the right. The text 'TX23X04093209W001' is visible on the component.

Solder Board-Component View 6	 A photograph of a small green printed circuit board (PCB) component, labeled 'WTX23X04093209W001', positioned horizontally. The component features several surface-mounted components, including resistors and a small integrated circuit. It is placed on a blue textured surface next to a black L-shaped ruler with white millimeter markings for scale.
Solder Board-Component View 7	 A photograph of the same green PCB component, viewed from the side, showing its profile. The component is placed on a blue textured surface next to a black L-shaped ruler with white millimeter markings for scale.
