

This device complies with part 25 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference when this equipment is operated normally. This equipment generates, uses, and can radiate radio frequency energy and, if not installed and used in accordance with the instruction manual, may cause harmful interference to radio communications.

However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient the receiving antenna.
- Increase the separation between equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or a qualified radio/television technician for help.

Dispose of this product in accordance with all local laws and regulations. Because this product contains electronic components and a battery, it must be disposed of separately from household waste. Contact local authorities to learn about disposal and recycling options.

model KJ45BT
www.MEEAudio.com/KJ45BT

- A. USB-C charging port
- B. Volume up / mute
- C. Volume down
- D. Status indicator
- E. On / off / mute
- F. 3.5mm audio
- G. Microphone

Charge for 2 hours. The indicator will turn blue once fully charged.

*Not all devices support this functionality.
For more information, refer to the user manual for your device.

ABOUT OUR VOLUME-LIMITING TECHNOLOGY
 limit4x headlines and endnotes can easily be

portable video devices, and may cause permanent hearing damage with lengthy or repeated exposure. Kidzmax headphones sit on an integrated volume limiter to maintain safe listening levels. Kidzmax is an industry standard by most medical organizations, protecting young ears and helping ensure listening good listening habits.

Note: *Kidzmax* is based on average SPL measurement of a typical portable device output (100dB), while the *limiter* is designed to restrict the volume to a safe level with typical portable video device, some high power audio systems may still produce sound levels that are above safe level for children. It is important for parents and guardians to monitor their children's use of these headphones and ensure that they are being used in a safe and responsible manner.

VOLUME LIMITER ON/OFF SWITCH

TROUBLESHOOTING

Factory Reset

All previously paired devices will be cleared from memory and a new pairing will need to be created.

TROUBLESHOOTING (CONTINUED)

Safety and Care

- Clean with a soft cloth, damp with mild soap water solution if necessary. Do not use chemical cleaners.
- The lifetime of the battery will be significantly reduced if your device is not charged for a long time. It is recommended to charge your device at least once a month.
- Do not expose to liquids. If the device comes in contact with liquids, quickly wipe away. If submerged in water, do not power the device on until completely dried. Note: Liquid submersion voids the warranty.

Warranty:

MEE audio products purchased from authorized resellers are covered by a 1-year manufacturer warranty. For more information, contact your local MEE audio dealer or visit MEEaudio.com/support.

WARNINGS

Choking hazard: small parts, not for children under 3 years.
Keep the packaging out of the reach of children.

Do not use while driving a car, cycling, operating machinery, or performing other activities that require hearing surrounding sound.

This device is designed and manufactured to operate within its defined design limits. Abuse may result in electric shock or fire. Read and follow these instructions carefully.

- If submerged in water, do not turn the device on until completely dry. Water liquid submersion voids the warranty.
- Danger of explosion or fire if batteries are damaged. Keep away from direct sunlight, naked flames, flammable gasses, or hot surfaces such as radiators or stoves.
- Battery performance will be lowered if decreased when stored in extreme temperatures below -40°C/23°F or above 50°C/121°F including direct sunlight.
- Do not use around flammable gasses as fire or explosion may occur.
- There may be user-replaceable/separable parts in the device. Disassembling it will void your warranty.
- Do not use attachments/accessories specified by the manufacturer.
