

Recycling

This symbol means that according to local laws and regulations your product and/or its battery shall be disposed of separately from household waste.

When this product reaches its end of life, take it to a collection point designated by local authorities. The separate collection and recycling of your product and/or its battery at the time of disposal will help conserve natural resources and ensure that it is recycled in a manner that protect human health and the environment the battery by yourself.

Compliance

This device complies with Part 15 of the FCC Rules and Industry Canada licence-exempt RSS standard(s). Operation is subject to the following two conditions: [1] this device may not cause interference, and [2] this device must accept any interference, including interference that may cause undesired operation of the device.

Simplified EU DoC

Hereby, HED Technologies, declares that this wireless headphone is in compliance with Directive 2014/53/EU.

The full text of the EU declaration of conformity is available at the following internet address: hedtechnologies.com

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Specifications / Safety instructions

Hearing damage risk

Do not listen at high volume levels for long periods

Battery

Lithium - ion Polymer.

Temperature range of standard charging : 10°C – 45°C.

Do not drop, burn, crush or expose the headphone to excessive heat, liquid or humidity or extremely low air pressure.

In case of damage, do not try to repair the headphone on your own but refer to the HED Technologies service. Do not try to replace the battery by yourself.

HED Technologies has not approved any changes or modifications to this device by the user. Any changes or modifications could void the user's authority to operate the equipment.

Frequency bands : 2400 – 2483.5 MHz

Output power : 17dBm (or 12dBm TBC)
