

EXHIBIT 4 - TEST SETUP PHOTOGRAPHS

Conducted Emission Test Setup	 A photograph showing a conducted emission test setup. On the left, a piece of electronic equipment (likely a spectrum analyzer or noise meter) sits on a wooden table. A red cable connects it to a power supply unit on the floor. To the right, another wooden table holds a smartphone and a power adapter. The background is a plain wall with a power outlet.
Radiation Emission Test Setup (Below 30MHz)	 A photograph of a radiation emission test chamber. The interior walls are covered with white, square-shaped electromagnetic interference (EMI) shields. A metal frame structure is visible in the center, and a small light source is mounted on the wall. The floor is dark and reflective.

**Radiation Emission
Test Setup (Above18GHz)**

*** Means' only test and setup for PART 15C .**
