							ons of SJ/T 11364			

This table is prepared in accordance with the provisions of SJ/T 11364.

O: Indicates that this toxic or hazardous substance contained in all of the homogeneous materials for this part is below the limit requirement of GB/T 26572.

X: Indicates that this toxic or hazardous substance contained in at least one of the homogeneous materials used for this part is above the limit requirement of GB/T 26572.

This symbol means the electronic product contains some hazardous substances, it is safe to use under the time limit for the usage, proper disposal and recycling are suggested when exceeded the time limit for the usage.

Bluetooth speaker unable to pair with mobile
 Solution: Check if the speaker is under pairing mode and whether the Bluetooth on the phone is turned on, Check the Bluetooth menu on your phone, delete/remove the speaker from the list, follow the instructions in the user manual and reconnect to the speaker.

 Bluetooth speaker fails to turn on
 Solution: Please check the battery, and recharge the speaker. 3. Can I replace the battery of the Bluetooth speaker? Solution: No, the built-in lithium-ion battery is non-removable.

4. Can I use the speaker at high volumes for a long time? Solution: To extend the service life of the Bluetooth speaker, it is suggested not to use it at high volumes for a long time. 5. Bluetooth speaker disconnects from the mobile in 10 meters Solution: Bluetooth is wireless technology. Therefore, it is very sensitive to objects between the speaker and the connected device. Please check if there is any metal or other object that may affect the connection within the effective distance.

6. No sound is provided after the speaker and computer/mobile are well-connected. Solution: Check if the audio output of the computer has adjusted to Bluetooth audio setting, and confirm if the computer Bluetooth supports A2DP protocols, check the volume of the computer or mobile.

7. After the Bluetooth speaker and mobile are well-connected, can I operate the application on mobile through the speaker? Solution: Some APPs may not support being operated through speaker due to varied

FCC Statement

1. This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:
(1) This device may not cause harmful interference.
(2) This device must accept any interference received, including interference that may cause undesired operation.

2. Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

Note: This equipment has been tested and found to comply with the limits for a class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation.

This equipment generates uses and can radiate radio frequence energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. if this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

Reorient or relocate the receiving antenna.

Increase the separation between the equipment and receiver.

Connect the equipment into an outlet on a circuit different from to which the receiver is connected.

Consult the dealer or an experienced radio/TV technician for help. The device has been evaluated to meet general RF exposure requirement.
The device can be used in portable exposure condition without
