

MULTI-UNIT WIRELESS CHARGER
USER GUIDE

relaygo.com | republicwireless.com

Model RW1702

Basic Operation

1. Insert USB-C cable to rear of charger and attach other end of cable to the included wall power adapter
Please note: Only use included adapter for proper charging)
2. Plug power adapter into wall outlet
3. Place Relay+ units (up to 5) flat against each charging surface as shown above.
4. LED will be solid red if charging properly. LED will turn solid green when charging is complete.

For proper, safe charging, ensure that there are no metal objects, magnets or thick cases between the back of the Relay+ device and the charging surface. The unit should sit flat against the charge surface.

LED Functions

Solid red	Relay+ is charging
Solid green	Charging is complete
Flashing Red	Fault or low charge mode
LED is off	No charge/standby

Troubleshooting

If the LED is flashing red, double check that the unit is sitting flat against the charging surface and that there is nothing obstructing the placement.

If the LED does not light up when the Relay+ is against the charging surface, please ensure that the USB-C cables are fully inserted and the power adapter is properly plugged into the wall.

Please note: We recommend only using the provided power wall adaptor to ensure proper charging functionality.

Warnings

1. Do not place metal objects, magnets, magnetic stripe cards, or hard drive based devices near the wireless charger. It may cause data corruption.
2. Do not attempt to modify, disassemble, or repair this product.
3. Do not expose to water, moisture, or extreme temperatures

NOTE: Wireless Chargers may become warm when charging devices.

- IC Caution:
- Radio Standards Specification RSS-Gen, issue 5
- - English:
- This device contains licence-exempt transmitter(s)/receiver(s) that comply with Innovation, Science and Economic Development Canada's licence-exempt RSS(s). Operation is subject to the following two conditions:
- This device may not cause interference.
- This device must accept any interference, including interference that may cause undesired operation of the device.
- RF exposure statement:
- The equipment complies with IC Radiation exposure limit set forth for uncontrolled environment. This equipment should be installed and operated with minimum distance 20cm between the radiator and your body.
- - French:
- Cet appareil contient des émetteurs / r é cepteurs exempt é s de licence conformes aux RSS (RSS) d'Innovation, Sciences et D é veloppement é conomique Canada. Le fonctionnement est soumis aux deux conditions suivantes:
- Cet appareil ne doit pas causer d'interf é rences.
- Cet appareil doit accepter toutes les interf é rences, y compris celles susceptibles de provoquer un fonctionnement ind é sirable de l'appareil.
- D é claration d'exposition RF:
- L' é quipement est conforme à la limite d'exposition aux radiations de la IC é tablie pour un environnement non contrôl é . Cet é quipement doit é tre install é et utilis é avec une distance minimale de 20 cm entre le radiateur et votre corps.

FCC WARNING

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation. Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment. NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

FCC RF exposure statement:
The equipment complies with FCC Radiation exposure limit set forth for uncontrolled environment. This equipment should be installed and operated with minimum distance 20cm between the radiator and your body.

Warning: Changes or modifications to this unit not expressly approved by the part responsible for compliance could void the user' s authority to operate the equipment
