

A diagram showing a rectangular label with rounded corners. The label is divided into several sections by dashed lines. On the left is a large empty rectangular box. To its right is a section containing the text 'MODEL: VECAMF-12A661-AB'. Below this text are three stacked empty rectangular boxes. At the bottom of the label, there are two small empty rectangular boxes on the left, followed by two lines of text: 'FCC ID: NT8-14WCSCB' and 'IC: 3043A-14WCSCB'. Five arrows point to specific areas: one to the large empty box on the left, one to the model text, one to the top of the three stacked boxes, one to the FCC ID text, and one to the IC text.

MODEL: VECAMF-12A661-AB

FCC ID: NT8-14WCSCB

IC: 3043A-14WCSCB
