# Installing your Lightcloud Blue Lamp

Pre-Installation

① Turn off power

• Place the wall switch in the off position.
• Turn off the main power at the breaker panel or remove the fuse from the fuse box.

⚠ WARNING

② Find a suitable location

Use these guidelines when installing devices:
• If there is a clear line of sight between a Lightcloud Blue Smart RGB A19 and another Lightcloud Blue device they can be placed up to 200 feet apart.
• If a Lightcloud Blue Smart RGB A19 and another Lightcloud Blue device are separated by ordinary drywall construction, try to keep them within 70 ft. of each other.
• Brick, concrete and steel construction may require additional Lightcloud Blue devices to go around the obstruction.

Installing your Lightcloud Blue Lamp *(cont'd)*

③ Connect device to power.

After installed, turn the power on and the lamp will enter pairing mode automatically if it has not already been paired. Once the lamp has been paired, it will indicate by flashing on and off 5 times and then dim to 30% brightness.

Lightcloud®

Lightcloud Blue is a wireless lighting control system. It's powerful and flexible, yet easy to use and install. Learn more at **www.lightcloud.com**

Controlling your Lightcloud Blue Device

① Confirm your device is connected and powered on.

② Download the Lightcloud app from the Apple App Store or Google Play store.

③ Launch the App and create an account.

④ Tap the "add device" icon in the app to start connecting devices.

⑤ Follow the remaining steps in the app. Create areas, groups, and scenes to organize and control your devices.

⑥ You're all set!

Setting Device to Pairing Mode

If your Lightcloud Blue Smart RGB A19 is already paired, you can reset it by using the below methods.

Method 1: Manual 　1-10 devices

Power the lamp off and on 5 times consecutively. Do not allow more than 2 second to elapse between switching. The lamp will flash 3 times, then reset to 100% brightness at default CCT.

x5

Method 2: Reset Tool 　10 or more devices

The reset process must be done by professional electricians qualified by RAB. Reach out to your RAB sales manager to request a Reset Tool. The tool simply needs to be placed directly on the lamp for 2 seconds. The lamp will flash 3 times, then reset to 100% brightness at default CCT.

Functionality

Configuration

All configuration of Lightcloud Blue products may be performed using the Lightcloud Blue app.
