EUT Housing and Board
View 2

Solder Board-Component View 1	 A photograph showing a circular component, likely a coin cell battery, mounted on a blue solder mask. The component is positioned next to a black ruler with white markings. The ruler shows measurements in millimeters (mm) and centimeters (cm). The component is labeled "CR2032 3V Maxell Asia Product MADE IN CHINA".
Solder Board-Component View 2	 A photograph showing a circular component, likely a coin cell battery, mounted on a blue solder mask. The component is positioned next to a black ruler with white markings. The ruler shows measurements in millimeters (mm) and centimeters (cm). The component has a textured, metallic surface.

Solder Board-Component View 3	 A photograph showing a small electronic component, likely a microcontroller or sensor, mounted on a printed circuit board (PCB). The component is connected to a larger, rectangular metal frame via a thin wire. A blue wire is also visible, connected to the component. The assembly is placed on a blue surface next to a black ruler with white markings in millimeters. The ruler shows measurements from 0 to 100 mm.
Solder Board-Component View 4	 A photograph showing a different view of the same electronic component and assembly. The component is connected to the metal frame and the blue wire. The assembly is placed on a blue surface next to a black ruler with white markings in millimeters. The ruler shows measurements from 0 to 100 mm.
