RE: FCC ID: N6C-SX10WG_ATCB004163
Attention: Hiroka Umeyama / Yoshiko Mizuta

I have a few comments on this Application. Please note that further comments may arise in response to answers provided to the questions below.

1. Please note that the block diagram is listed in the confidential exhibits yet no block diagram was provided. Please note that for a PC2 adding an antenna, the block diagram is not needed. Please either provide the block diagram or remove it from the list of confidential exhibits.
2. Please note that antenna specifications are not considered an operational description. Please explain why this exhibit is listed as an operational exhibit. Please justify why the antenna specification should be confidential.
3. Please note that the parts list is included in the confidentiality request. Please note that a parts list is not necessary for part 15C intentional radiators. Please either provide the parts list or remove it from the confidentiality request.
4. Please note that the schematics are listed on the request for confidentiality. Please either provide the schematics or remove them from the confidentiality request.

The items indicated above must be submitted before processing can continue on the above referenced application. Failure to provide the requested information may result in application termination. Correspondence should be considered part of the permanent submission and may be viewed from the Internet after a Grant of Equipment Authorization is issued.

Please do not respond to this correspondence using the email reply button. In order for your response to be processed expeditiously, you must submit your documents through the AmericanTCB.com website. Also, please note that partial responses increase processing time and should not be submitted.

Any questions about the content of this correspondence should be directed to the sender.
