RE: Honeywell

FCC ID: CFS8DLLYNXREN-5 (FCC Review)

After a review of the submitted information, I have a few comments on the above referenced Application.

- 1) Test Photographs only support this device laying down. Please note that given this device is wall mounted, positioning should default to typical position which would be upright position. If this was not investigated, further testing/investigation will be required. Please review. (ANSI C63.4 6.1.1, 6.2, etc.)

For IC

- 2) Label does not show that applicant as certified is given on the label. Please review.
- 3) FYI....In the future, please ensure BW for IC is measured using a VBW > 3 * RBW.
