Streamlined the Rules

1. Explain the meaning of the term 'management' and its functions.
2. Discuss the importance of management in an organization.
3. Explain the meaning of the term 'management' and its functions.
4. Discuss the importance of management in an organization.
5. Explain the meaning of the term 'management' and its functions.
6. Discuss the importance of management in an organization.

Syllabus

1. *What is the purpose of this research?* (The purpose of this research is to investigate the effects of the proposed intervention on the self-esteem of adolescents with low self-esteem.)
2. *What is the research design?* (The research design is a quasi-experimental design with a pre-test and post-test.)
3. *What is the sample size?* (The sample size is 30 adolescents with low self-esteem.)
4. *What is the data collection instrument?* (The data collection instrument is a self-esteem scale.)
5. *What is the data analysis technique?* (The data analysis technique is a t-test.)
6. *What is the conclusion?* (The conclusion is that the proposed intervention has a positive effect on the self-esteem of adolescents with low self-esteem.)
7. *What are the limitations of the study?* (The limitations of the study are the small sample size and the lack of a control group.)
8. *What are the implications of the study?* (The implications of the study are that the proposed intervention can be used as a self-help tool for adolescents with low self-esteem.)
9. *What are the future research directions?* (The future research directions are to conduct a larger study with a control group and to investigate the long-term effects of the intervention.)
10. *What is the overall summary?* (The overall summary is that the proposed intervention has a positive effect on the self-esteem of adolescents with low self-esteem.)
