Subject: Module Integration and installation manual

FCC ID: VC3-DR100V3

IC ID: 7160A-DR100V3

To Whom It May Concern:

1. Please note that this module is to be installed only by us (HES) in our end products and will not be marketed to any other party. Installation shall be under our control and therefore full compliance of the end product shall always be ensured. All future hosts shall have RFID fundamental levels and all radiated spurious emissions checked. The module shall be certified as host dependent with test results supplied for a specific host. The module shall be integrated by the grantee (HES) in their end products only.
2. For additional hosts other than the specific host originally granted with this limited module, a Class II permissive change is required on the module grant to register the additional host as a specific host also approved with the module.
3. The module is subject to CFR 47 FCC Part 15 Subpart C, "Intentional Radiators" regulations.
4. A host that contains the module is required to list the applicable FCC ID's and IC ID's of the module:
 - "Contains: VC3-DR100V3"
 - "Contains: 7160A-DR100V3"
 - "Contains: Y88-MBM1CC2640"
 - "Contains: 9504A-MBM1CC2640"
5. Changes or modifications not expressly approved by HES could void the user's authority to operate the equipment.
6. This device complies with Part 15 of the FCC Rules and applicable RSS standards. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Conformité aux normes IC

Cet appareil est conforme avec Industrie Canada exempt de licence RSS standard(s). Son fonctionnement est soumis aux deux conditions suivantes:

(1) cet appareil ne peut causer d'interférences, et., (2) cet appareil doit accepter toute interférence, y compris des interférences qui peuvent provoquer un fonctionnement indésirable du périphérique.

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the

interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Any host that utilizes the module still requires Part 15 Subpart B compliance testing with the modular transmitter installed.

7. The antenna(s) used for this module must be installed to provide a separation distance of at least 20cm from all persons and must not be collocated or operated in conjunction with any other antenna or transmitter.

Sincerely,

Baruch Spence
