

尺寸: 80x80mm

Smart Life

Thank you for using smart doorbell camera

**FCC SDoC**

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following.

**measures:**

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

**RF Exposure Information:**

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance 20cm between the radiator & your body.

**FCC Statement:**

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
  - In crease the separation between the equipment and receiver.
  - Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
  - Consult the dealer or an experienced radio/TV technician for help.
- Caution: Any changes or modifications to this device not explicitly approved by manufacturer could void your authority to operate this equipment.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1)This device may not cause harmful interference, and (2)this device must accept any interference received, including interference that may cause undesired operation.

**Basic Parameters**

Product Name: Video doorbell	
Resolution: 2/3/4MP	PIR human detection: Supports PIR detection to wake up
Day and night conversion: dual filters automatically switch	Two-Way Audio: support full duplex real-time calls
Local storage: 256G Micro SD card	Wireless Network : 2.4G 802.11 b / g / n
Supported platforms: Android / iOS	Audio input / output: -38dB microphone / speaker

**Component Description:**

Reset Button: Long press "reset" hole 5sec, reset success.

It is recommended to insert 8-128GB high-speed Micro SD card, otherwise it will not be able to store, view historical video and support Important functions such as firmware upgrading.

Packing list: smart doorbell camera × 1, manual × 1, USB Power Cord screw accessory package × 1

**Product Introduction**

**LED light working logic**

- (1)Red light slow flashing: Waiting for pairing light off: doorbell Standby
- (2)Blue light flashing: Wifi connecting blue light on: PIR activate
- (3)Blue light on: Wifi connected

**non-15-degree mounting bracket**

- 1 Monut by Screw
- 2 Insert the doorbell
- 3 Tight it by the screw

**15-degree mounting bracket**

- 1 Monut by Screw
- 2 Insert the doorbell
- 3 Tight it by the screw

**Install APP**

Download APP: scan the QR code below to download and install. Register and login: open the "Smart Life" APP to register and login according to the prompts.

**Add The Device-Scan QR code mode**

- Make sure Wi-Fi is available and connected to the Internet.
- Connect the camera to the power, then system startup completed.
- Open "Smart Life" APP, press the "+" in the upper right corner of the main screen (Figure 01); choose "Security & Video Surveillance", click "Smart Camera" (Figure 02) to add camera; and then click "Next step" (Figure 03);
