**Re: Ubiquiti, Inc. (“Ubiquiti”)
Operability with Automated Frequency Coordination (“AFC”) System**

Dear Madam/Sir:

Qualcomm Canada ULC (“**Qualcomm**”), a designated AFC System Administrator (“**AFCSA**”) in Canada, with identification number 004, provides this letter as required by Section 6.4 of the Radio Standards Specification #248 (RSS-248).

This purpose of this letter is to confirm that Ubiquiti (i) has tested standard power access points and/or fixed client devices with Qualcomm’s, or its affiliate’s, AFC service (the “AFC Service”), and (ii) such standard power access points and/or fixed client devices are capable of operating with the AFC Service as of October 31, 2024. Those standard power access points and/or fixed client devices can contact the AFC Service to obtain the channel availability for the operation of such devices.

Qualcomm Canada ULC
