<div><div><div>Warranty does not protect against acts of God such as flood, earthquake, lightning, war, vandalism, theft, normal-use wear and tear, erosion, depletion, obsolescence, abuse, damage due to low voltage disturbances (e.g. brownouts or sags), non-authorized program, or system equipment modification or alteration.</div><div><div>How to claim the warranty</div><div>Please contact retailers or visit TeckNet website www.tecknet.co.uk for more information.</div></div><div><div>Disclaimer</div><div>Every effort has been made to ensure that the information and procedures in this guide are accurate and complete, no liability can be accepted for any errors or omissions and we reserve the right to make any changes without further notice to any products mentioned herein.</div></div><div><div><div>SIMPLIFIED EU DECLARATION OF CONFORMITY</div><div>The simplified EU declaration of conformity referred to in Article 10(9) shall be provided as follows: Hereby, Shenzhen Unichain Technology Co., Ltd. declares that the radio equipment type TK-H5004 is in compliance with Directive 2014/53/EU. The full text of the EU declaration of conformity is available at the following internet address: http://www.tecknet.co.uk/support</div></div></div><div>EN-06</div></div></div>	<div><div><div><div><div></div><div></div></div><div><div>FCC Statement</div></div></div><div><div>Operation is subject to the following three conditions: (1) This device may not cause harmful interference, and (2) This device must accept any interference received, including interference that may cause undesired operation. (3) This device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction.</div></div></div><div><div><div><div><div></div><div></div></div><div><div>Note:</div></div></div><div><div>This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures: Reorient or relocate the receiving antenna. Increase the separation between the equipment and receiver. Connect the equipment into an outlet on a circuit different from that to which the receiver is connected. Consult the dealer or an experienced radio / TV technician for help.</div></div></div><div>EN-07</div></div></div>	<div><div><div><div><div></div><div></div></div><div><div>Herzlichen Glückwunsch</div></div></div><div><div>Vielen Dank, dass Sie sich für Ihr neues Bluetooth-Headset TK-H5004 entschieden haben.
