RE : Class II Permissive Change Certification Application
FCC Tx ID : AB6NT1900MFRM
IC ID: 332331274A

Dear Sir/Madam,

Please accept this application for the class II permissive change certification of the product filed under Part 2 Subpart J, for equipment operating under Part 24, Subpart E of the regulations of the Federal Communications Commission. The product for which authorization is sought is Nortel Networks' 1900MHz MFRM radios.

The reason for Nortel Networks to file a class II permissive change for the radio with FCC ID AB6NT1900MFRM is to additionally support *1xEV-DO IS856 Carrier*. Tests were done to ensure that the radios can meet FCC Part 2 and 24 requirements with 1xEV-DO carriers. No extra hardware change in the radio is required to support 1xEV-DO carriers.

All detailed information is included in the respective exhibits as required by the Rules. Please find the following attached exhibits:
