

Expedite Review Required Information Parameters	FCC ID(s) of Previously Granted DFS Devices: HZB-NGP1058W	FCC ID of New Application: HZB-NGP1058B
Technology: (i.e.; 802.11x, frame based, MIMO, smart antenna, etc.)	802.11ac	802.11ac
Bandwidth information and differences	20, 40 and 80 MHz	20,40 and 80 MHz
Antenna information and differences for the minimum gain antennas	external passive antennas, minimum antenna gain 5 dBi	Active antenna certified as part of the modular certification, antenna gain 20 dBi
Differences in DFS functioning, Chipset, circuitry, software, etc.	No difference, identical radio module and identical software.	No difference, identical radio module and identical software.
Differences between the products such as TX power, modulation, receivers, processing circuitry, etc.	No difference, identical radio module and identical software, only using passive antenna.	No difference, identical radio module and identical software, only added amplified antenna.
Names of the test labs for the various Grants	QuieTek	Compliance Testing
