

ISMLINK KBNT5828-25

5.8GHz Solid Dish Antenna

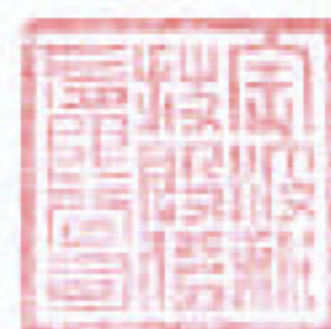

K-Best's antenna provides great gain power enhancement and wide wireless coverage in the air. The square appearance abbreviate customer to install or deploy quickly and could adapt various weather condition with outstanding performance.

Benefits

- 5725~5850 MHz unlicensed ISM Band
- Higher gain with 28.5dBi
- Solid dish
- Long distance transmission
- Outstanding VSWR
- Waterproof housing

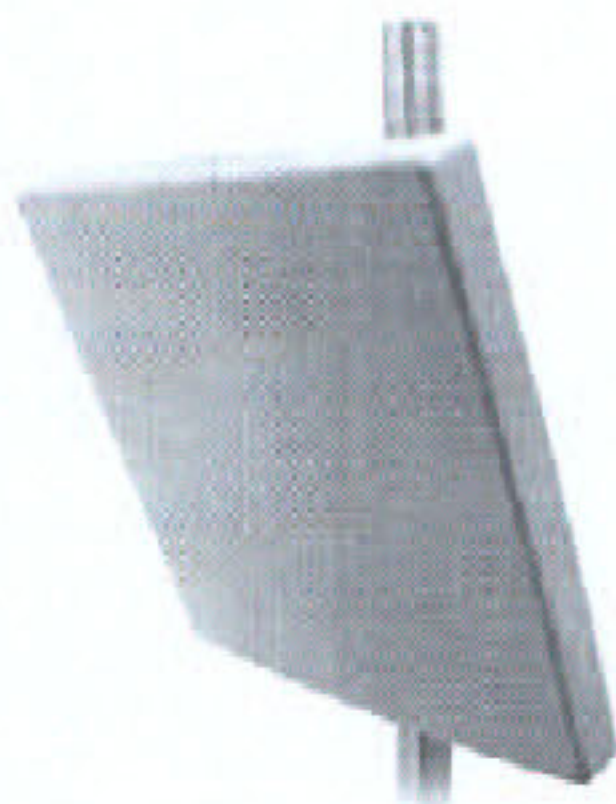

Specifications

Model Number.		KBNT5828-25
Frequency		5725~5875MHz
Gain(dBi)		28.5
Type		Solid Dish
Polarization		Horizontal, vertical
Beamwidth	Hor.	6
	Ver.	6
VSWR		≤ 1.15
Dimensions(mm)		Φ60cm
Connector		N-type

ISMLINK KBNT5822-16

5.8GHz Panel Antenna

K-Best's antenna provides great gain power enhancement and wide wireless coverage in the air. The square appearance abbreviate customer to install or deploy quickly and could adapt various weather condition with outstanding performance.

Benefits

- 5725~5850 MHz unlicensed ISM Band
- Higher gain with 22dBi
- Square panel
- Light weight and compact size
- Outstanding VSWR
- Waterproof housing

Specifications

Model Number.	KBNT5822-16	
Frequency	5725~5875MHz	
Gain(dBi)	22	
Type	Panel	
Polarization	Horizontal, vertical	
Beamwidth	Hor.	6
	Ver.	6
VSWR	≤ 1.4	
Dimensions(mm)	350*350*37,1.2kg	
Connector	N-male
