

Cambium Networks

Sept 30th, 2016

To whom it may concern,

Cambium Networks is requesting Elite Engineering (TCB), file a change in identification with the FCC regarding FCC ID: Z8H89FT0026 per 2.933. This is a multi-layer Ethernet radio operating between 757 MHz to 758 MHz and 787MHz to 788MHz.

Original identification: PEJXKJS7

Original date: Dec 15, 2015

Differs in external housing color: blue and labeled Cambium Networks (original Xetawave was green)

Original test results are still valid, representative and applicable.

External photos have been submitted as well as the label.

Sincerely,

Steven M. Payne

R.F. Principle Staff Engineer
