Re: Class II Permissive Change Cover Letter

To Whom It May Concern:

In accordance with the commission's rules of Section 2.1043, changes in certified equipment and KDB 178919, Permissive change policy, EMS Technologies Canada Ltd requests for a Class II Permissive Change for the existing FCC ID K6KHSD440 to allow EMS Technologies Ltd., introduce higher modulation schemes of QAM32, QAM64 and new symbol rates of 84 ksym/s and 168 ksym/s via SW upgrade on existing hardware platform.

EMS Technologies Canada Ltd.

A handwritten signature in black ink, appearing to read "S. Mills", written over a horizontal line.

Steven Mills
Director of Engineering
