RE: Class II Permissive Change for I28MD-BTC2TY3

To Whom It May Concern:

The submission is for a Class II permissive change to the modular approval of the Zebra Technologies transmitter granted with the above FCC ID. The change is to remove the co-location restriction on the grant. The module has otherwise remained unchanged. Only new and/or changed exhibits are included in this application.

Please call or email with questions or for additional clarification.

Sincerely,

Alvin Ilarina  
SIEMIC Laboratories
