## Note: about the speakers using environment.

- 1: Bluetooth connection and transmission may be affected by the surrounding environment like tress, metal and some other materials, for they can absorb or block the signal, so the distance of data transmission may be influenced as well.
- 2: Fully charge your speaker while using for the first time. Please (when the speaker battery gets lowered, the sound will be not as good as the sound in normal case.)
- 3: Please do not expose the speaker into the high temperature environment.

## Specifications:

Power rating	3W
Frequency Response	20Hz-20kHz
THD	<1%
S/N	>80dB
Speaker Parameter	4 $\Omega$ 3W diameter 36mm
Battery	3.7V/200mAh
Bluetooth Version	Bluetooth V4.2
Product Size	60*60*73mm
Product Weight	90g

### FCC Warning Statement

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.
