

FAQs (1)What to do if I forget the management password? Try the Wi-Fi password which may be the same with the management password. If not, please restrict the factory settings. (2) How to restore the factory settings?
Try the Wi-Fi password which may be the same with the management password. If not, please restricted factory settings.
the factory settings.
② How to restore the factory settings?
Power on the router and wait for 2 to 3 minutes until it starts up. Press the Reset button for more tha seconds until the system status indicator blinks. After the indicator changes to steady on and the SS "@ Reyee-sXXXX" is broadcast, the router restores the factory settings successfully.
③Can I connect multiple routers with network cables?
Yes, and wired connection is more stable. You can connect the WAN port (yellow) from secondary de with the LAN port (black) from master router for wired connection.
Federal Communications Commission Statement
