

In response to item #4, the following is copied directly from ANSI C63.4:2014 (see last sentence);

- f) Power accessories, such as ac power adapters that power other devices, shall be tested in the following manner:
  - 1) Power accessories that are not the EUT: If the power accessory connects to a tabletop EUT having a power cord to the power accessory less than 80 cm in length, the power accessory is placed on the tabletop. If the EUT power cord to the power accessory is 80 cm or greater in length, then the power accessory is placed on the floor immediately under the EUT.

The cable was greater than 80cm, so it was placed on the floor immediately under the EUT. This is also described in the p
