Re: Dismissal of Part 15 Certification Application of 900MHz Cordless
Phone , FCC ID: LBBFF930

Dear Madam,

We, Continental Conair Limited, applicant of the Part 15 Certification Application of the captioned product (FCC ID:LBBFF930), officially request that the above application be dismissed.

Several factors contribute to this decision and one of which is the lost of application fee check during postage and consequently lead to delay in our business schedule.

In addition, the major factor is the closing down of the manufacturing firm for the captioned product under the current economic atmosphere.

Hence, it is our belief that it would be mutually advantageous in terms of your department's processing time point of view and our business point of view that the mentioned application be dismissed.

Please proceed to all actions that is necessary for the dismissal of the mentioned application.

Should you have any more enquiries, don't hesitate to contact us via our agent Intertek Testing Services (Hong Kong) Ltd.
