Columbia MD 2104

SUBJECT: Class II Permissive Change for FCC ID: VUIPR2400-48EA, approval date: 03/07/2024

Dear Examiner,

This is to request a Class II Permissive Change application for above referenced device.

The hardware change filed under this application is:

1. Add a cover on the exterior of device.

Except the change described above, the design and software are the same with original granted.

The maximum RF power and antenna gain values are identical with the original, thus the original RF exposure report still represents the compliance to RF exposure standards.

Sincerely,
