

**Date:** November 15<sup>th</sup>, 2017

## **Class II permissive change request letter**

**Manufacturer:** Panasonic Corporation of North America

**Model:** VPR4-A

**FCC ID:** ACJ-VP4RA

We, Panasonic Corporation of North America, pursuant FCC §2.1043, hereby request the evaluation of a Class II permissive change as described below for the VPR4-A, which was granted by DEKRA Testing and Certification, S.A.U. on April 25<sup>th</sup>, 2017.

The change made to the currently certified equipment is to the internal SXM chipset and do not degrade the characteristics currently reported and accepted.

No changes to transmit power output, modulation or frequency have been made.

The change introduced in the device:

- The SXM internal chipset has been changed per an equivalent one as described in the Operational Description.

Therefore, the new model can be considered to be electrically identical to the corresponding already assessed radio equipment.

Yours sincerely,

P.A.
