Solder Board-Component View 6	 A photograph of a green printed circuit board (PCB) component, labeled '6', placed on a blue textured surface. The component is rectangular and populated with various electronic components, including resistors, capacitors, and integrated circuits. A black ruler with white markings is positioned horizontally below the component, showing measurements in millimeters. The ruler markings range from 0 to 100 mm.
Solder Board-Component View 7	 A photograph of a green printed circuit board (PCB) component, labeled '7', placed on a blue textured surface. The component is rectangular and populated with various electronic components, including resistors, capacitors, and integrated circuits. A black ruler with white markings is positioned horizontally below the component, showing measurements in millimeters. The ruler markings range from 0 to 100 mm.

Solder Board-Component View 8	 A photograph showing a small green printed circuit board (PCB) component mounted on a larger blue PCB. The component has several surface-mount components, including a chip labeled '1009150' and '2000 85000'. It is positioned next to a black ruler with white markings in millimeters. The ruler shows measurements from 10 to 80 mm.
Antenna View	 A photograph showing the same green PCB component from a different angle, highlighting the antenna section. A red box labeled 'WIFI Antenna' points to the antenna area. The component is placed next to a black ruler with white markings in millimeters, showing measurements from 10 to 80 mm.
