Health and Safety Information

Important Health Information and Safety Precautions When using this product, the safety precautions below must be taken to avoid possible legal liabilities and damages. Retain and Observe all warmings in the product operating instructions. To reduce the risk of bodily injury, electric shock, fire and damage to the equipment, closely observe all of the following precautions.

the equipment, closely observe all of the following precautions. Safety Precautions for Proper Grounding Installation Caution: Connecting to improperly grounded equipment can result in an electric shock to either you or your device. This product is equipped with a USB Cable for connecting to a desktop or before connecting this product to the computer. The power add before connecting this product to the computer. The power add ing conductor and a grounding plug. The grounding plug must be plugged into an appropriate outilet which is properly installed and grounded in a cordance with all local codes and ordinances.

Safety Precautions for Power Supply Unit

Use the correct external power source. A product should be operated only from the type of power source indicated on the electrical ratings label. If you are not sure of the type of power source required, consult your authorized service provider or local other sources, refer to the operating instructions that are included with the product.

with the product. Electrical Safety This product is intended for use when supplied with power from the designated battery or power supply unit. Other usage may be dangerous and will invalidate any approval given to this product. battery, there is a risk of fire and burns if the battery pack is handled improperly. Do not attempt to open or service the battery pack. Do not disassemble, crush, puncture, short external contacts to the battery of disassemble, crush, puncture, short external contacts theremeatures higher than 60°C (140°F). Mote: Danger of explosion if battery is incorrectly replaced. Replace only with specified batteries. To replace the battery take the device and authorized service concern recycled or dispose of used batteries the instructions in the reference guidens, or in accordance with the instructions in the reference guidens.

Pollow these after specific percentions: 1. Keep the battery or device dry and away from water or any liquid as it may cause a short circuit. 2. The device should be connected only to products that bear the USB-IF logo r have completed the USB-IF compliance program. 3. Keep metal objects away so they do not come in contact with the battery or its connectors as it may lead to short circuit during operation. 4. Always keep the battery out of the reach of babies and small children to avoid swallowing. Consult a doctor immediately if the

children to avoid swallowing. Consult a doctor immediately it the battery is swallowed. 5. Don't use a batter that appears damaged, deformed, 5. Don't use a batter that appears damaged, deformed, fire, explosion, leakage or other hazard, system that has been 7. Only use the battery with a charger may present a risk of 6. Use of an unqualified battery or charger may present a risk of 6. Avoid dropping the device or battery, if the device or battery, if a dropping the davice or battery, if the device or battery is dropped, especially on a hard surface causing damage, take it to a service center for inspection. Join the leaking fluid to come in contact with eyes. If contact occurs, D0 NOT rub the eyes. Rinse with chan water immediately and seek medical advice. Do not allow

contact with eyes. It contact occurs, DO NOT rub the eyes. Rinse with clean water immediately and seek medical advice. Do not allow the leaking fluid to come in contact with skin or clothing. If contact occurs, flush the affected area immediately with clean water and seek medical advice. Take other precautions to keep a leaking battery away from fire as there is a danger of ignition or explosion.

Safety Precautions for Direct Sunlight Store this product away from excessive moisture and extreme temperatures. Do not leave the product or its battery inside (400°F), or upset on area the thermore understand and the that is exposed to direct sunlight or strong ultraviolate light for extended periods of time. This may damage the product, over the battery, or pose a risk to the vehicle.

Environmental Restrictions Do not use this product in gas stations, fuel depots, chemical plants or where blasting operations are in progress, or in potentially explosive atmospheres such as fueling areas, fuel storehouses, below deck on boats, chemical plants, fuel or chemical transfer or storage facilities, and areas where the air contains chemicals or particles, such as grain, dust, or metal powders. Please be aware that sparks in such areas could cause an explosion or fire resulting in bodily inpury or even death.

Aircraft Safety Due to the possible interference caused by this product to an aircraft's navigation system and its communications network, using this device's function on board an airplane is prohibited in most

Safety Precautions for RF Exposure

steel frame of a building). **Explosive Atmospheres** When in an area with a potentially explosive atmosphere or where flammable materials exist, the device should be turned off and the user should obey all signs and instructions. Sparks in such areas could cause an explosion or fire resulting in bodily injury or even apoints such as service or gas stations, and are reminded of the need to observe restrictions on the use of radio equipment in fuel depots, chemical plants, or where blasting operations are in progress. Areas with a potentially explosive atmosphere are often, but not always, clearly marked such as fueling areas, below deck on boats, fuel or to areas where the air contains chemicals or particles such as grain, dust, or metal powders.

dust, or metal powders. **Interference with Medical Equipment Functions** This product may cause medical equipment to malfunction. The use of this device is prohibited in most hospitals and medical clinics for which regulations and rules are commonly posted in such facilities in these instances, turn your device OFF a likelith care facilities in these instances, turn your device OFF a likelith care facilities your device(5) to determine if the device(5), adequately bielded from external RF energy. Your health care provider may be able to assist you in obtaining this information.

assist you in obtaining this information. Non-ionizing Radiation Your device has an interme antenna. This product should be Your device has an interme position to ensure the radiative performance and safety from interference. As with other mobile radio transmitting equipment, users are advised that for safetsfactory operation of the equipment and for personal safety. It is recommended that no part of the human body should come too close to the antenna during equipment operation. Interfect of the enterna during equipment operation modified antennas may impair call quality and damage the device, causing loss of performance and SAR levels exceeding the recommended limits, as well as causing non-compliance with local and national regulatory requirements. In order to limit RF energies devices and the ensure optimal device performance, operate the device may impair call quality and cause your device to operate a higher power level than needed which can reduce antenna performance and battery life.

Battery Information and Precautions To assure product safety, there shall be precautions below. Danger! - Use compatible chargers and follow the specified conditions when

charging the cell, unages and notice the specified conditions the cell only with the specified equipment. - Do not put or sfore cell together with metal articles such as necklaces, hairpins, coins, or screws. - Oo not short circuit the (+) and (-) terminals with metal

Do not short circuit the (+) and (-) terminals with metal conductors. conductors. cold in a device with the (+) and (-) in a reverse way. Do not penetrate cell with a sharp articles such as a needle. Do not weld the cell directly. Do not weld the cell directly. Do not weld the cell directly and the sharp articles use has curate handling of the start human base of the cell. immediately. Caution! - Store batteries out of reach of children so that they are not Store batteries out of reach of children so that they are not accidentally swallowed or handled.
If younger children use the cell, their guardians should explain the proper handling, he user's manual and cautions on handling thoroughly before using the cell.
Batteries have cycle life. Replace failed cell with a new cell that is the same brand immediately after normal life cycle expiration, or if expiration has occurred prematurely.
Store battery in a low-humidity and low-temperature environment if the battery won't be used for an extended period of time.
Keep It far away from articles or materials with static electric
Wipe with a dry cloth before using the cell if the terminals of the cell become dirty.

Safety Instructions for Charging Please read the following informat

Please read the following information carefully. 1. The maximum ambient temperature of the charger shall not exceed 40°C (104 degrees E). 2. The charger shall be installed according to specification. The current of load and output power shall not exceed the following

value: Input: AC100-240V- 50/60Hz 0.15A Output: DC5V = 1A

PCC Notice and Cautions This device and its accessories comply with Part 15 of FCC Rules. Operation is subject to the following conditions: (1) This device and its accessories may not cause harmful interference. (2) This device and its accessories must accept any interference received, including interference that may cause undesired operation.

Part 15.21 Statement: Changes or modifications that are not expressly approved by the manufacturer could void the user's authority to operate the

Part of Statement 15:105: This equipment has been tested and found to comply with the limits for a class 8 digital device, pursuant to Part 15 of the FCC Rules. In the second second second second second second second second harmful interference in a residential installation. This equipment generates, uses, and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no advected to the second second second second second second determine if this equipment is causing the harmful interference by turning the equipment off and then back on to see if the interference.

If necessary, try correcting the interference by one or more of the following measures: - Reorient or relocate the receiving antenna. - Increase the separation between the equipment and receiver. - Increase the separation between the activity different from that to which the receiver is connected. - Consult the dealer or an experienced radio/TV technician for further assistance.

TIA Safety Information The following is the complete TIA Safety Information for wireless

handheld devices: Exposure to Radio Frequency Signal Your wireless handheid portable device is a low-power radio Your wireless handheid portable device receives and sends out Radio Frequency (RF) signals. In August 1996, the Federal Communications Commissions (FCC) adopted RF exposure guidelines with safety levels for handheld wireless devices. Those guidelines are consistent with the safety standards previously set by both U.S. and international standards 'bodies, as follows: ANSI C951 (1992) ' NCRP Report 86 (1986) [CNIRP (1996)

representatives, as well as any of all or its armitated entities, regardless of place of incorportion, if any such claim arises from the Product's sale, condition or performance. Notwithstanding the foregoing, neither this warrantly nor provision of any Product shall, in and of itself, provide for in persona jurisdiction over any of COOLPAD's employees, contractors, agents, and/or other representatives, or over its affiliated entities.

If any portion of this Limited Warranty is held to be illegal or unenforceable, such partial illegality or unenforceability shall not affect the enforceability of the remainder of the Limited Warranty.

THIS LIMITED WARRANTY SETS OUT THE FULL EXTENT OF COOLPAD'S RESPONSIBILITES, AND THE EXCLUSIVE REMEDY REGARDING THE PRODUCTS. ALL DISPUTES WITH COOLPAD ARISING IN ANY WAY FROM THIS LIMITED WARRANTY OR THE SALE, CONDITION OR PERFORMANCE OF THE PRODUCTS SHALL BE RESOLVED EXCLUSIVELY BY ANY COURT WITH COMPETENT JURISDICTION. Any such dispute shall not be combined or consolidated with a dispute involving any other person's or entity's Product or claim, and specifically, without limitation of the foregoing, shall not under any circumstances proceed as part of a class action. The laws of the State of California, without reference to Lis choice of laws principles, shall govern the interpretation of the Limited Warranty and all disputes arising out of the products or services.

* American National Standards Institute; National Council on Radiation Protection and Measurements; International Commission on Non-Ionizing Radiation Protection. Those standards were based on comprehensive and periodic evaluations of the relevant scientific literature. For example, over 120 scientists, engineers, and physicians from universities, government health agencies, and industry reviewed the available body of research to develop the ANSI Standard (CSSI). The design of your device complex with the FCC guidelines (and those standards). Antenna Care Use only the supplied or approved replacement antenna. Unauthorized antennas, modifications, or attachments could damage the device and may violate FCC regulations.

damage the device and may violate HCL regulations.
Pacemakers
The Health Industry Manufacturers Association recommends that a minimum separation of six (6) inches be maintained between a handheld wireless device and a pacemaker to avoid potential consistent with the independent research by and recommendations of Wireless Technology Research.
Persons with Decemakers
Should ALWAYS keep the device in a breast pocket:
Should not carry the device in a breast pocket:
Should not carry the device in a breast pocket:
Should use the ear opposite the pacemaker to inhimize the potential for interference;

ocential for interference; Should turn the device OFF immediately if there is any reason to uspect that interference is occurring

Electronic Devices Most modern electronic equipment is shielded from RF signals but some equipment or devices might not be.

Hearing Alds Some digital wireless devices may interfere with hearing aids. In the event of such interference, you please consult your service provider, or call customer service regarding alternatives.
