

EXHIBIT 3 - EUT INTERNAL PHOTOGRAPHS

EUT Housing and Board View 1	 A photograph showing the internal components of an EUT (End User Terminal) housing. The components are laid out on a blue surface next to a black ruler with white markings. The components include a white plastic housing, a white cable with a USB connector, a circular metal component with a copper-colored inner ring, a circular white component with a grid pattern, and a circular white component with a QR code. The ruler shows measurements in millimeters and centimeters.
EUT Housing and Board View 2	 A photograph showing the internal components of an EUT (End User Terminal) housing. The components are laid out on a blue surface next to a black ruler with white markings. The components include a white plastic housing, a white cable with a USB connector, a circular metal component with a copper-colored inner ring, a circular white component with a grid pattern, and a circular white component with a QR code. The ruler shows measurements in millimeters and centimeters.

Solder Board-Component View 1	 A photograph showing the top view of a small, dark, rectangular electronic component mounted on a blue textured surface. The component has various surface components, including a large square chip with '383 112 320' markings, several smaller chips, and numerous solder points. A black L-shaped ruler with white markings is placed next to the component for scale. The ruler shows measurements in millimeters (0 to 100 mm) and centimeters (0 to 10 cm).
Solder Board-Component View 2	 A photograph showing the bottom view of the same electronic component. The underside is dark and shows a dense array of gold-colored solder points and pads. The component is positioned on the same blue textured surface. A black L-shaped ruler with white markings is placed next to it for scale, showing measurements in millimeters and centimeters.

Solder Board-Component View 3	 A photograph of a black printed circuit board (PCB) with various electronic components. The board is irregularly shaped and has a blue textured background. Components include a large square chip with '3R3 112 2X0' markings, several smaller chips, resistors, and capacitors. A yellow label '820-0262-A' is visible on the left side.
Antenna View	Wireless Charging Antenna  A photograph showing the disassembly of a wireless charging antenna. A red line points from the text 'Wireless Charging Antenna' to a circular component. The components include a white plastic housing, a copper-colored circular antenna coil, and a white circular substrate. A white USB cable is also visible. A ruler is placed at the bottom for scale.
