

Antenna Specification

Device name: 6116 coil;

Wire diameter :0.2MM;

Inductance value: 345UH,+/-5%;

**Size: rectangular, outer diameter length and width
49*39MM, inner diameter length and width 45*35MM;**

Lead length: lead length 65MM;

Working temperature: -20-80 degrees;

Storage temperature: -25-105 degrees;
