

User Manual:

Bluetooth speaker

Package Content

- 1 Lantern Color-Changing Bluetooth Speaker
- 1 Micro USB Charging Cable
- 1 3.5mm Auxiliary Audio Cable
- 1 User Manual

Pairing

1. Long press the Power button on the speaker to power up the speaker and enter pairing mode. The LED indicator light will blink while in pairing mode. You will hear a voice prompt that the speaker is ready for pairing;
2. On your Bluetooth enabled smartphone, tablet or media player, navigate to the Bluetooth setting menu, turn on the Bluetooth feature, and search for new devices;
3. Search for “BC-BS-108” on the pairing device;
4. Tap this model to select it and successfully pair it with the speaker. A voice prompt should confirm that the pairing was successful. The speaker will beep. You are now paired, connected and ready to play music.

Auxiliary Line-in (AUX-IN):

1. For other compatible music player devices, or MP3/MP4 players, please use the an auxiliary audio line cable (included) to connect from your external device’s “LINE OUT” jack to the “AUX-IN” jack of this speaker;
2. Press the “MODE” button to switch to the AUX-IN;
3. While using an external device, all functions will be controlled by the external device except for the PLAY/PAUSE button.

Charging

- Connect the small end of the Micro USB charging cable (included) to the Micro USB port located on the back of the speaker. Connect the larger end of the cable to your computer’s USB port or an AC adaptor (not included);
- The LED indicator will turn red, and turn out when the speaker is fully charged.

Lamp Functions

1. Once the speaker is powered up, touch the speaker grill once (on the top of the device), and the LED lamp light will be turned to white color;
2. Continuing to tap the grill will increase the brightness of the white LED lamp light. There are 3 levels of brightness, followed by the LED lamp light being turned off;
3. To change the color of the LED lamp light, press and hold the grill 3 seconds, the LED lamp light will be changed to red. Every subsequent press will cycle through 7 vibrant LED lamp light colors: Red, Green, Blue, Light Green, Light Blue, Purple, and Multi-Color mode. In multi-color mode, the speaker will automatically transition between colors by itself. To return to the white LED lamp light, press and hold the grill for 3 seconds.

Controls Index

MODE	Change Mode between Aux /Bluetooth
	Long Press Volume Up Short Press Next Song
	Long Press Volume Down Short Press Previous Song
	Short Press Play/ Pause Answer / End call
	Power on/off

Playing Music

- There are 4 ways to listen to music:
 1. Connect your device to the speaker via Bluetooth. Open your favorite music app and press PLAY on your Bluetooth device;
 2. Connect your device via the AUX input port on the back of the speaker;
- After playback starts, you can control the music with your connected device or the buttons of the Bluetooth speaker;
- Press the Play/Pause button once to answer/end calls. Press either of the volume buttons to adjust the volume on the speaker;
- Note: Volume on your device and on the speaker are controlled separately. All audio, including music, games, videos, and notifications will be routed through the speaker. In addition, on-speaker controls only when connected via Bluetooth, and will not work when your device is connected via AUX cable.

- Bluetooth enabled device
- Stereo Bluetooth Speaker, supporting A2DP/AVRCP, for wireless HI-FI stereo music
- Transmission distance: 10m
- Speaker: 3W
- Battery: 1200mAh
- Size: 3.7 x 3.7 x 4.8 inches(L x W x H)
- Weight: 350 grams
- Play Time: Up to 5 hours
- Charge Time: up to 3 hours
- Signal Noise Rate: >85dB

NOTE: This equipment has been tested and found to comply with the limits for a

Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions,

may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which

can be determined by turning the equipment off and on, the user is encouraged to

try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help

Changes or modifications not expressly approved by the party responsible for compliance

could void the user's authority to operate the equipment.

This device complies with Part 15 of the FCC Rules. Operation is subject to the following

two conditions:

- (1) this device may not cause harmful interference, and
- (2) this device must accept any interference received, including interference that may cause undesired operation.
