DHS40-R - Rear View

A red, rectangular, heavy-duty electrical device, likely a surge protector or power supply unit, with a textured front panel and mounting brackets. The device is shown from a front-three-quarter view, highlighting its robust construction and industrial design. It features a red plastic casing with a series of horizontal ridges on the front face. Two silver-colored mounting brackets are attached to the bottom, and two silver-colored screws are visible on the top. A small white label with black text and a logo is located in the upper right corner. The device is mounted on a black base.
