Emergency calls

 Important: Connections in all conditions cannot be guaranteed.

Never rely solely on any wireless phone for essential communications. like medical emergencies.

- Before making the call:
- Switch the phone on
 If the phone keys are locked, unlock them.
- Move to a place with adequate signal strength.

 Press the end key repeatedly, until the home screen is shown.

 Type in the official emergency number for your present location. Emergency call numbers vary by location
- Give the necessary info as accurately as possible. Do not end the call until given permission to do so.

 You may also need to do the following:

- Put a SIM card in the phone.
 If your phone asks for a PIN code, type in the official emergency number for your present location, and press the call key
- Switch the call restrictions off in your phone, such as call barring, fixed dialling, or closed user group.

Take care of your device

- Handle your device, battery, charger and accessories with care. The following suggestions help you keep your device operational.

 Keep the device dry. Precipitation, humidity, and all types of liquids or moisture can contain minerals that corrode electronic
- circuits. If your device gets wet, remove the battery, and let the
- device dry.

 Do not use or store the device in dusty or dirty areas. · Do not store the device in high temperatures. High temperature
- may damage the device or battery.

 Do not store the device in cold temperatures. When the device warms to its normal temperature, moisture can form inside the device and damage it.

 Do not open the device other than as instructed in the user guide.
- Unauthorized modifications may damage the device and violate regulations governing radio devices.
 Do not drop, knock, or shake the device or the battery. Rough
- Annual program break it.
 Only use a soft, clean, dry cloth to clean the surface of the device.
 Do not paint the device. Paint can prevent proper operation.
 For optimal performance, switch the device off and remove the
- battery from time to time.

 Keep the device away from magnets or magnetic fields.

 To keep your important data safe, store it in at least two separate places, such as your device, memory card, or computer, or write

Restore original settings

To reset your phone to its original settings and to remove all your data, on the home screen, type in *#7370#.

Recycle

Always return your used electronic products, batteries, and packaging materials to dedicated collection points. This way you help prevent uncontrolled waste disposal and promote the recycling of materials. Electrical and electronic products contain a lot of valuable materials, including metals (such as copper, aluminum, steel, and magnesium) and precious metals (such as gold, silver, and palladium).
All materials of the device can be recovered as materials and energy.

Crossed-out wheelie-bin symbol

The crossed-out wheelie-bin symbol on your product, battery, literature, or packaging reminds you that all electrical and electronic products and batteries must be taken to separate collection at the end of their working life. Do not dispose of these products as unsorted municipal waste: take them for recycling. For info on your nearest recycling point, check with your local waste authority

Battery and charger info

Use your device only with an original BL-4WL/BL-4UL rechargeable battery. Charge your device with the AC-18 charger. Charger plug type may vary, HMD Global may make additional battery or charge

Battery and charger safety Always switch the device off and unplug the charger before removing the battery. To unplug a charger or an accessory, hold and pull the

When your charger is not in use, unplug it. If left unused, a fully charged battery will lose its charge over time.

EN EU Queen2 value QG DRAFT 04.fm Page 2

Always keep the battery between 15°C and 25°C (59°F and 77°F) for optimal performance. Extreme temperatures reduce the capacity and lifetime of the battery. A device with a hot or cold battery may not work temporarily.

Accidental short-circuiting can hannen when a metallic object touches the metal strips on the battery. This may damage the battery

Do not dismantle, cut, crush, bend, puncture, or otherwise damage the battery in any way. If a battery leaks, do not let liquid touch skin or eyes. If this happens, immediately flush the affected areas with water, or seek medical help. Do not modify, attempt to insert foreign objects into the battery, or immerse or expose it to water or other liquids. Batteries may explode if damaged.
Use the battery and charger for their intended purposes only.

Improper use, or use of unapproved or incompatible batteries o chargers may present a risk of fire, explosion, or other hazard, and may invalidate any approval or warranty. If you believe the battery or charger is damaged, take it to a service centre before continuing to use it. Never use a damaged battery or charger. Only use the charger indoors. Do not charge your device during a lightning storm. Do not dispose of batteries in a fire as they may explode. Obey lor regulations. Recycle when possible. Do not dispose as household

Small children

Your device and its accessories are not toys. They may contain small parts. Keep them out of the reach of small children.

Medical devices

Operation of radio transmitting equipment, including wireless phones, may interfere with inadequately shielded medical devices' function. Consult a physician or the medical device's manufacturer to determine if it is adequately shielded from external radio energy.

Implanted medical devices

To avoid potential interference, manufacturers of implanted medical devices recommend a minimum separation of 15.3 centimeters (6 inches) between a wireless device and the medical device. Persons who have such devices should:

- Always keep the wireless device more than 15.3 centimeters (6 inches) from the medical device.
- Not carry the wireless device in a breast pocket.
- Hold the wireless device to the ear opposite the medical device Switch the wireless device off if there is any reason to suspect that interference is taking place.

(ii) The legible and original proof of purchase, clearly indicating the name and the address of the seller, the place and date of purchase, the Product type and the serial number.

To the fullest extent permitted by applicable law:
(i) No replacement will renew or extend the Warranty period unless such renewal or extension is mandated by local law, in which case the Warranty period is extended by the minimum time required by law (ii) For countries where such renewal or extension is not mandated by local law, replacement Product or accessories provided under this Warranty will be covered by this Warranty for the remainder of the original Warranty period or for sixty (60) days from the date the

(iii) Original Product or accessories not found to be defective will not replaced and will be covered by this Warranty for the remainder of

the original Warranty period; and
(iv) The Product or all accessories that have been replaced become seller's property.

Manufacturer does not warrant that software preinstalled by or on upgrades) (together "Manufacturer Software") will meet your quirements, work in combination with any hardware or software not provided by Manufacturer, be uninterrupted or error free or that errors are correctable or will be corrected. independent scientific organization ICNIRP and include safety margins designed to assure the protection of all persons, regardless of age and health. The guidelines use a unit of measurement known as the Specific Absorption Rate, or SAR. The SAR limit for mobile as the specific Assistance of the service of the service when the steel at the ear is 1.08 W/kg². As mobile devices offer a range of functions, they can be used in other positions, such as on the body. In this case, the highest tested SAR value is 1.75 W/kg² at the separation distance of 0.5 cm from the body. For electronic safety maintain the separation distance with accessories containing no metal, that position handset a minimum of the above distance. Use of other accessories may not ensure compliance with RF exposure

guidelines. * The tests are carried out in accordance with international his mobile device meets guidelines for exposure to radio waves as set forth by the Federal Communications Commission (FCC), Refer to the following.
FCC RF Exposure Information

Your handset is a radio transmitter and receiver. It is designed and manufactured not to exceed the emission limits for exposure to radio manufactured not to exceed the emission limits for exposure to facility frequency (RF) energy set by the Federal Communications

Commission of the U.S. Government. The guidelines are based on standards that were developed by independent scientific organization through periodic and thorough evaluation of scientific studies. The standards include a substantial safety margin designed to assure the safety of all persons, regardless of age and health. The exposure standard for wireless handsets employs a unit of measurement known as the Specific Absorption Rate or SAR. The SAR limit set by the FCC is 1.6 W/kg. The tests are performed in positions and locations (e.g. at the ear and worn on the body) as required by the FCC for each model. The highest SAR value for this handset model as reported to the FCC when tested for use at the ear is 1.41 W/kg (TA-1316), 1.33 W/kg (TA-1321), and when worn on th body in a holder or carry case, is 1.34 W/kg (TA-1316), 1.29 W/kg (TA-1321). Body-worn Operation; This device was tested for typical body-worn

operations with the handset kept 1.5 cm from the body. To maintain compliance with FCC RF exposure requirements, use accessories that maintain a 1.5 cm senaration distance hetween the user's hody and the handset. The use of belt clips, holsters and similar accessories should not contain metallic components in its assembly. The use of accessories that do not satisfy these requirements may not comply with FCC RF exposure requirements, and should be avoided. The FCC has granted an Equipment Authorization for this handset model with

If this Warranty does not cover your Product or the issue based on which it requires service, Manufacturer reserves the right to charge for the repair or replacement of your Product, as well as a handling

4. Limitation of Manufacturer's liability

To the extent permitted by applicable law(s), Manufacturer shall not under any circumstances be liable, either expressly or implicitly, for

(i) Damages or losses of any kind whatsoever resulting from or relating to loss of, damage to, or corruption of, content or data or the re-creation or transfer thereof even if such loss, damage, or corruption was a result of

(a) a Defect in your Product; or (b) an attempt to repair your Product; and/or (ii) Loss of profit, productivity, functionality, business, contracts. revenues or anticipated savings, increased costs or expenses, or for any indirect, consequential or special loss or damage. To the extent permitted by applicable law, Manufacturer's liability shall be limited to the purchase value of your Product. The limitations in this clause 4 shall not apply in case of Manufacturer's negligence or intentional misconduct or in case of death or personal injury resulting from Manufacturer's proven

5. Other important notices

Manufacturer's limited warranty

1. General

HMD Global Oy (hereinafter "Manufacturer") provides this Manufacturer's Limited Warranty ("Warranty") for the genuine Product ("Product") which Manufacturer has released for sale in the Product (Product , which manufacturer has released for sale in the European Union, Iceland, Norway, and Switzerland, where the Product was purchased through Manufacturer's authorized sales channels, provided that the Product was intended for sale in that country ("Covered Country").

This Warranty covers and includes any statutory rights under any mandatory consumer protection laws of the Covered Country applicable to you, and also grants you specific, and as the case may be, additional rights, within the limits of what is permissible under such law. This Warranty does not limit the rights you may have under applicable consumer protection laws. You may have other rights based on local laws during or after the Warranty period. These rights are not excluded by this Warranty.

The Product and its accessories shall be used in accordance with the instructions provided in the user guides and leaflets that come in the Product package and are also available at www.nokia.com/mobile-

2. Warranty

The Warranty period starts on the date the Product is sold to an end user for the first time, as evidenced by the original proof of purchase. Manufacturer warrants that the Product is free from defects in

materials and workmanship ("Defect") for:
(i) Twenty-Four (24) months for the main device, and
(ii) Six (6) months for the battery, charger, headset and any other accessory included in the sales package of the main device, unless the law requires that the Manufacturer offers a longer period, in which case the Warranty period is extended to cover the minimum period required by the law.

To know more about your country specific Warranty, please visit www.nokia.com/mobile-support.
During the Warranty period, any Defect covered by this Warranty will

be remedied within a reasonable time, free of charge, through the replacement of the Product or accessory affected by the Defect.

During the Warranty period, in case you suspect that your Product or
any accessory has a Defect, please take it back to the point of sale where the Product has been purchased. The seller will perform a preliminary analysis on the Product or accessory and if found to be defective, the Product or accessory will be replaced. When replacing your Product, Manufacturer may use new or re-conditioned parts of Product except where the use of such re-conditioned parts or Product is barred by local law. In case local law should require the end user to be informed about the use of re-conditioned parts or Product, this Warranty document can be considered as the necessary notice in that regard. In case local law requires consent from the end user for the use of re-conditioned parts or Product, then such parts or Product will not be used till such consent has been obtained. When making a Warranty claim, you must present:

(i) The Product or accessory that has allegedly presented a Defect;
