

RF exposure — addendum notice

Update to RF exposure guidelines

The RF exposure guidelines for your product have changed.

The information in the following statement supersedes any other information related to RF exposure provided with your product documentation.

RF exposure

This equipment complies with FCC / IC RF exposure limits for general population / uncontrolled exposure. The wireless LAN / Bluetooth antenna is mounted behind the front fascia of the display. This equipment should be installed and operated with a minimum distance of 1 cm (0.39 in) between the device and the body. This transmitter must not be co-located or operating in conjunction with any other antenna or transmitter, except in accordance with FCC multi-transmitter product procedures.
