Getting Started

a Available in various sizes

Closed ear buds
(suitable for listening to music)

Semi-closed ear buds
(suitable for making phone calls)

b How to wear

Gently insert the earbud into your ear and adjust the ear hook direction to fit securely and comfortably.

c Paring

The headset will directly enter pairing mode when switched on for the first time. In order to pair the Bluetooth headset with your device, you will need to bring it to pairing mode first. Simply power on the headset by separating the two parts of magnet switch. You can see the indicator flashes in blue. Press and hold the MFB button until you see the red and blue lights flash alternately.

From your device, turn on the Bluetooth function and search for the headset which should be listed as in search results. Then select it to connect.

Charging the headset

When the indicator flashes in red once every 8 seconds or when you hear "battery low", please recharge the headset.To charge the unit, simply connect the headset to any active USB port or adapter using the USB cable. The headset can be fully charged in around 2 hours. When fully charged, the indicator changes from red to blue.

Reset

When the headset is charging, press and hold MFB button until you see the red and blue lights flash alternately 3 times. This will clear all setting/memory.

Pairing with two devices

1.Follow the pairing procedure to connect the headset to device 1. Once connection is successfully established, disabled the Bluetooth function on device 1, and turn off the headset.
2.Turn on the headset again and follow the pairing procedure to connect the headset to device 2.

3.Once connection between device 2 and headset is established, go back to device 1 by turning on the Bluetooth function on device 1.

Multiple call handling

When you are already on a call, if there's an incoming call on the other phone, press MFB button to answer the 2nd call and put the 1st call on hold. You can switch between the two calls by double pressing MFB button.

Pause / Resume

When playing the music, press MFB button once to pause, press again to resume playing.

Turn on/off the voice notification

Press and hold the MFB button for 1 second.

Voice switching between headset and phone

During the call, press and hold the MFB button for 1 second.

FAQ/Trouble Shooting

Q: I have established connection with my smartphone, but I am not hearing any sound?
A: Please make sure that you turn up the volume of both devices. Some smartphone requires you to setup the Bluetooth headset as an audio output device before sound is transmitted. Please see the instruction of your smartphone of details. If you are using a music player or other Bluetooth device, please make it supports A2DP stereo music profile.
Q: Why the connection is not stable and cuts out intermittently?
A: Please make sure there are no objects between the headset and your Bluetooth device; please make sure there is no radio or WIFI interference nearby.
Q: Can I use the headset while it is charging?
A: No, you cannot use the headset while it is charging.
Q: The headset is not responding no matter what I do.
A: Please try to reset the headset, (see the "Reset" section)
Q: The sound is not very clear/the caller cannot hear my voice clearly.
A: Please adjust the volume on your phone and headset. Make sure there is no source of interference nearby. Stay close to your smartphone.

- CSR Bluetooth chip, ensuring optimal Bluetooth performance
- 360° adjustable ear hooks, fitting securely and comfortably
- Two types of ear tips, suitable for music and calls

FCC Statement
This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:
-- Reorient or relocate the receiving antenna.
-- Increase the separation between the equipment and receiver.
-- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
-- Consult the dealer or an experienced radio/TV technician for help.
This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:
(1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.
Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.
