RF Exposure Information

THIS MODEL PHONE MEETS THE GOVERNMENT 'S REQUIREMENTS FOR EXPOSURE TO RADIO WAVES.

Your wireless phone is a radio transmitter and receiver. It is designed and manufactured not to exceed the emission limits for exposure to radio frequency (RF) energy set by the Federal Communications Commission of the U.S. Government. These limits are part of comprehensive guidelines and establish permitted levels of RF energy for the general population. The guidelines are based on standards that were developed by independent scientific organizations through periodic and thorough evaluation of scientific studies. The standards include a substantial safety margin designed to assure the safety of all persons, regardless of age and health.

The design of this phone complies with the FCC guidelines and these international standards. Use only the supplied or an approved antenna. Unauthorized antennas, modifications, or attachments could impair call quality, damage the phone, or result in violation of FCC regulations. Do not use the phone with a damaged antenna. If a damaged antenna comes into contact with the skin, a minor burn may result. Please contact your local dealer for replacement antenna.

Near-by Person Operation

This device was tested for typical operations with the antenna of the phone kept 1.5 cm from the body. To maintain compliance with FCC RF exposure requirements, maintain a 1.5 cm separation distance between the user's body and the phone, including the antenna. *WARNING! Read this information before using your phone*

SAFETY PRECAUTIONS

- 1. Avoid placing the phone in a dusty location, or near a source of gas or fire.
- Don't shake, hit or drop the phone.
- If you clean the outside of the phone, use only a soft, dry cloth. The chemicals in alcohol, benzine or acetone can damage the surface of the phone.
- 4. Do not twist or pull the cord out of the phone.
- 5. Do not disassemble the phone.
- 6. DO NOT use the power adapter if:
 - The power cord is damaged.
 - . The phone has been dropped or damaged in any way.
- Use only the AXESS TELECOM provided adapter. Do not use the AXESS TELECOM adapter for any other purpose.
- Use only the AXESS TELECOM provided antenna. Do not use the antenna for any other purpose.
- Frequency and length of use can affect the life of the self-charging battery. Contact your customer service if the battery is not operating properly.
- Use only the designated self-charging battery. Dispose of exhausted batteries properly. Never discard a battery in or near fire or flame.
- Do not use the telephone near water, for example, near a bathtub, sink, wet basement, or swimming pool.
- NOTE : The input voltage and the shape of the plug on this phone may vary from country to country.

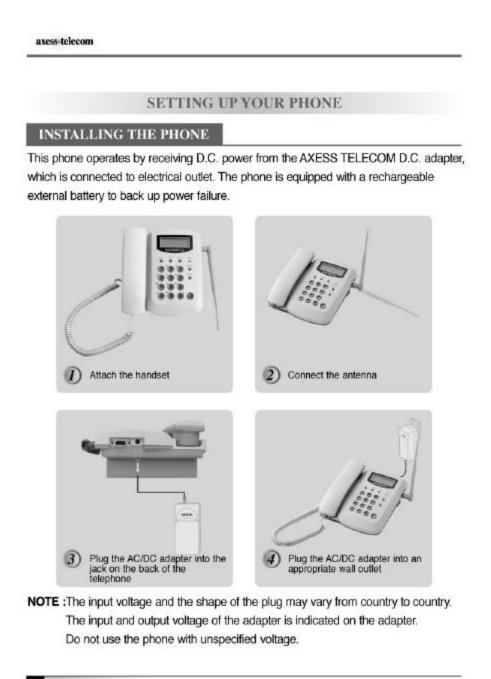

CHECKING THE PARTS

Once you have unpacked your phone, make sure that you have all the parts shown below. If any piece is missing or broken, please call your customer service.

1. ACW-1xP800/1xP1900 Main Set

- 3. AC/DC Adapter
- 5. Antenna
- 7. Data Cable-USB(Optional)
- 2. Hand Set
- 4. User's Manual
- 6. External Battery
- 6. Data Cable-RS-232C(optional)

SERVICE STATUS CHECK

Display in service area

When the power cord is connected properly, Power LED will light.

All segments in the LCD window will turn on briefly. When the service LED at the top of the phone is on, service is available.

The display will show the greeting, time and date. You can change the greeting(See page 34).

Display in area with no service

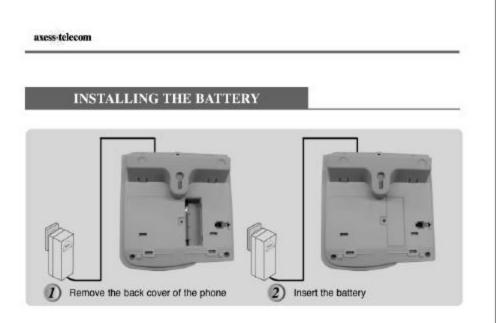

When there is no service in your area, the signal icon does not appear in the display. In this case, contact your service provider.
