

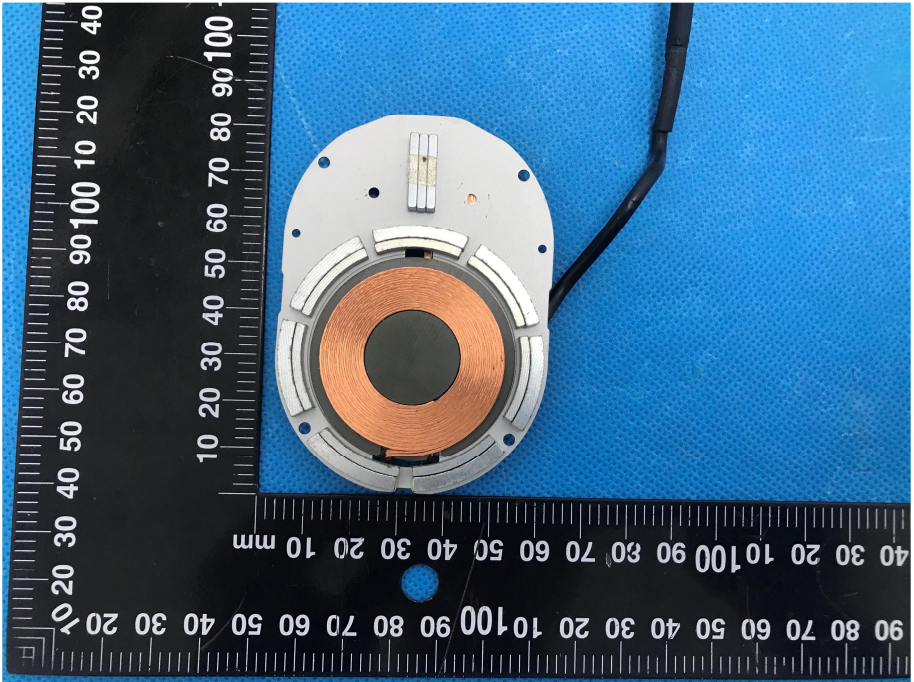

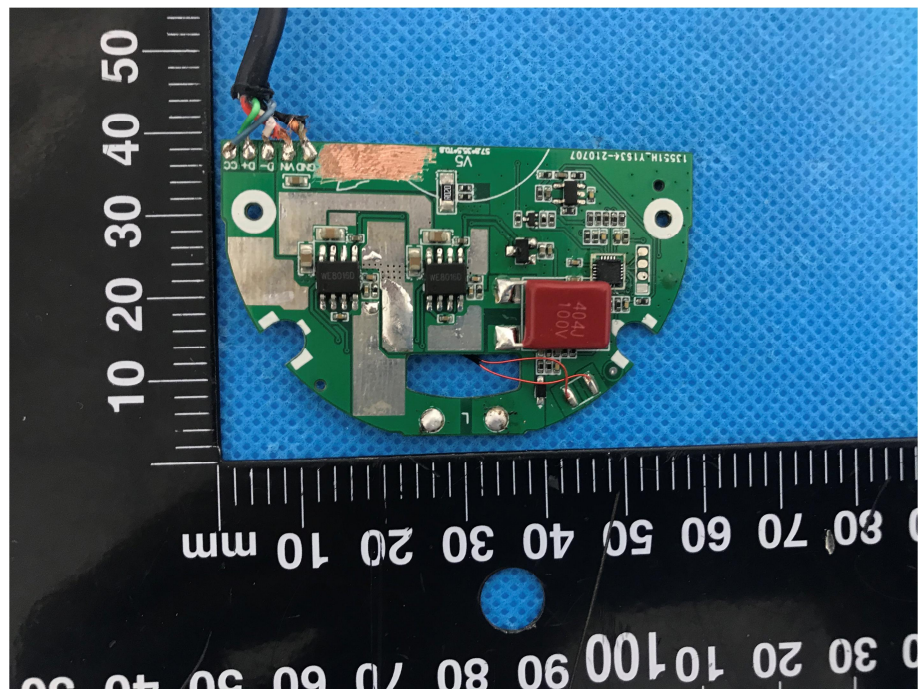

EXHIBIT 3 - EUT INTERNAL PHOTOGRAPHS

EUT Housing and Board View 1	 A photograph showing the disassembled components of an Electronic Under Test (EUT). On the left is a black plastic housing with a circular opening. In the center is a green printed circuit board (PCB) with various electronic components, including a large copper-colored inductor and several integrated circuits. To the right is a black circular cap. A black cable is connected to the PCB. A black ruler with white markings is placed horizontally below the components, showing measurements in millimeters and centimeters. The background is a blue textured surface.
Solder Board-Component View 1	 A close-up photograph of the solder board-component view of the EUT. It shows a circular copper-colored inductor mounted on a silver-colored metal base. A black cable is connected to the top of the inductor. A black ruler with white markings is placed horizontally below the component, showing measurements in millimeters and centimeters. The background is a blue textured surface.
