Battery Information

END-USER LICENSE AGREEMENT

You have acquired a device ("DEVICE") that includes software licensed by Symbol Technologies, Inc. from an affiliate of Microsoft Corporation ("MS"). These installed software products of MS origin as well as associated media, printed materials, and online or electronic documentation ("SOFTWARE") sold, all rights reserved.

GRANT OF SOFTWARE LICENSE. This EULA grants you the following license:

DEVICE SOFTWARE. You may use the DEVICE Software as installed on the DEVICE.

Companion CD. A Companion CD is included with your DEVICE, and you may install and use the Microsoft® ActiveSync component on one (1) or more personal computers to exchange information with one (1) or more computers. The Companion CD contains a complete installation of the ActiveSync component and may also contain other software components. The Companion CD is not to be used for any other purpose, and such component only in accordance with the terms of the printed or online end user license agreement(s) provided with such component(s). In the absence of an end user license agreement for particular component(s) of the Companion CD, you may install and use only one (1) copy of such component(s) on the DEVICE for a single personal computer with which you plan to use the DEVICE.

Phone functionality. If the DEVICE Software includes phone functionality, all or certain portions of the wireless telecommunication service to which the DEVICE is connected may be required to operate with the wireless telecommunication carrier to whom Symbol Technologies, Inc. may distribute its DEVICES ("Mobile Operator"), or if the Mobile Operator's network facilities are not operated or configured to operate with the DEVICE.

Microsoft® Outlook. If Microsoft Outlook is included with your Device, the following terms apply to your use of Microsoft Outlook. (i) regardless of the information contained in the Software installation and use instructions, you may not use Microsoft Outlook to store, send, receive, or otherwise use electronic mail, use electronic data, access and interact with the DEVICE, and (ii) the EULA for Microsoft Outlook is between Symbol Technologies, Inc. and the user - not between the PC manufacturer and end user.

DESCRIPTION OF OTHER RIGHTS AND LIMITATIONS.

- **Speech/handwriting Recognition.** If the DEVICE Software includes speech and/or handwriting recognition components, you should understand that speech and handwriting recognition are inherently statistical processes and the errors can occur in the component's recognition of your handwriting, and the final conversion into text. Neither Symbol Technologies, Inc. nor its suppliers shall be liable for any damages arising out of errors in the speech and handwriting recognition.
- **Limitations on Reverse Engineering, Decompilation and Disassembly.** You may not reverse engineer, decompile, or disassemble the SOFTWARE, except and only to the extent that such activity is requested, permitted by applicable law notwithstanding this limitation.
- **Single DEVICE.** The DEVICE Software is licensed with the DEVICE as a single integrated product of the DEVICE.

Patents

Symbol Technologies, Inc.
One Symbol Plaza
Holtsville, N.Y. 11742-1300
<http://www.symbol.com>

Symbol and the Symbol logo are registered trademarks of Symbol Technologies, Inc. Other product names mentioned in this manual may be trademarks or registered trademarks of their respective companies and are hereby acknowledged.

No license is granted, either expressly or by implication, estoppel, or otherwise under any patent right or patent, covering or relating to any combination, system, apparatus, machine, material, method, or process in which Symbol products might be used. An implied license exists only for equipment, circuits, and processes contained in Symbol products.

Symbol reserves the right to improve reliability, function, or design.

© 2005 SYMBOL TECHNOLOGIES, INC. All rights reserved.

Multiple translations and/or multiple media versions (e.g., in the user documentation and in the DEVICE Software) may contain multiple versions of the EULA, you are licensed to use only one (1) copy of the EULA.

NOTICE REGARDING THE MPEG-4 VISUAL STANDARD. The DEVICE Software may include MPEG-4 visual decoding technology. MPEG-4 LA, LLC, requires the following notice:

USE OF THIS SOFTWARE IN ANY MANNER THAT COMPLIES WITH THE MPEG-4 VISUAL STANDARD BY AND OR OPEN SOURCE CODE FROM A COMMERCIAL OR NON-COMMERCIAL SOURCE, WITHOUT SEPARATELY LICENSED BY MPEG-4 LA, LLC.

If you have questions regarding the Notice, please contact MPEG-4 LA, LLC, 250 Steele Street, Suite 300, Denver, Colorado 80202, telephone 303.331.1880, fax 303.331.1879.

Patent. You may not copy, lease, or lend the SOFTWARE.

SOFTWARE Transfer. You may permanently transfer all of your rights under this EULA, such as including all component parts, the media and printed materials, any upgrades, this EULA and, if applicable, the Certificate(s) of Authenticity, and the recipient agrees to the terms of this EULA. If the SOFTWARE is an upgrade, any transfer must include all prior versions of the SOFTWARE.

If the DEVICE Software includes phone functionality, you may not permanently transfer any of your rights under this EULA, such as including all component parts, the media and printed materials, any upgrades, this EULA and, if applicable, the Certificate(s) of Authenticity, and the recipient agrees to the terms of this EULA. If the SOFTWARE is an upgrade, any transfer must include all prior versions of the SOFTWARE.

Termination. Without prejudice to any other rights, Symbol Technologies, Inc. or MS may terminate this EULA if you fail to comply with the terms and conditions of this EULA. In such event, you must destroy all copies of the SOFTWARE and all of its component parts.

Security Upgrades/Digital Rights Management. Content providers are using the digital rights management technology ("DRM") contained in your DEVICE to protect the integrity of their content. Portions of the DEVICE Software and third party applications such as media players use DRM to play Secure Content ("DRM Software"). If the DRM Software's security has been compromised, owners of Secure Content ("Secure Content Owners") may request that enable the ability of DRM license servers and personal computers to deliver new licenses that enable you to play unencrypted content. A list of trusted DRM Software is sent to your DEVICE whenever you download a license or Secure Content from the Internet or from your personal computer. You therefore agree that MS may, in connection with such license, also download execution files onto your Device (on behalf of Secure Content Owners, MS will not release any personally identifiable information, or any other information, to any third party).

Consent to Use of Data. You agree that MS, Microsoft Corporation, their affiliates and/or their designated agent may collect and use technical information gathered in any manner as part of, or in connection with, the use of the DEVICE Software, MS, Microsoft Corporation, their affiliates and/or their designated agent may use the information solely to improve their products or to provide customized services or technologies to you. MS, Microsoft Corporation, their affiliates and/or their designated agent may disclose the information to others, but not to a third party, personally identifiable information you.

MC70
With Windows® Mobile 5.0
Licensing, Patent and Regulatory Information

Internet Gaming/Upgrade Features. If the DEVICE Software provides, and you choose to utilize, the Internet gaming or upgrade features within the DEVICE Software, it is necessary to use certain features, you accept and authorize MS, Microsoft Corporation, their affiliates and/or their designated agent to use the information solely to improve their products or to provide customized services or technologies to you. MS or Microsoft Corporation may disclose this information to others, but not to a third party, personally identifiable information you.

Internet-based Services Components. The DEVICE Software may contain components that require the use of Internet-based services. You acknowledge that you understand that MS, Microsoft Corporation, their affiliates and/or their designated agent may automatically check the version of the DEVICE Software and/or its components that you are utilizing and may provide updates or supplements to the DEVICE Software that may be automatically downloaded to your device.

Additional Software/Services. The DEVICE Software may permit Symbol Technologies, Inc. MS, Microsoft Corporation, their affiliates and/or their designated agent to provide or make available to you SOFTWARE updates, supplements, add-on components, or Internet-based services components of the DEVICE Software after the date you obtain your initial copy of the SOFTWARE ("Supplemental Components") and technologies, Inc. provide or make available to you Supplemental Components and no other EULA terms are provided along with the Supplemental Components, then the terms of this EULA shall apply.

If MS, Microsoft Corporation, their affiliates and/or their designated agent make available Supplemental Components, and no other EULA terms are provided, then the terms of this EULA shall apply. If MS, Microsoft Corporation, their affiliates and/or their designated agent make available Supplemental Components, and no other EULA terms are provided, then the terms of this EULA shall apply. If MS, Microsoft Corporation, their affiliates and/or their designated agent make available Supplemental Components, and no other EULA terms are provided, then the terms of this EULA shall apply.

UPGRADES AND RECOVERY MEDIA.

DEVICE Software. If the DEVICE Software is provided by Symbol Technologies, Inc. separate from the DEVICE on media such as a ROM chip, CD-ROM disk(s) or via web download or other means, and is labeled "For Upgrade Purposes Only" you may install one (1) copy of such DEVICE Software onto the DEVICE. The upgrade software may be accompanied by additional documentation, including this EULA, including any additional EULA terms accompanying the upgrade DEVICE Software.

COMPANION CD. If any software component(s) is provided by Symbol Technologies, Inc. separate from the DEVICE on CD-ROM disk(s) or via web download or other means, and labeled "For Upgrade Purposes Only," you may install and use one (1) copy of such component(s) on the computer(s) you use to exchange data with the DEVICE as a replacement copy for the existing Companion CD component(s).

Regulatory Information
All Symbol devices are designed to be compliant with rules and regulations in locations they are sold and will be labelled or modified to comply.
Any changes or modifications to Symbol Technologies equipment, not expressly approved by Symbol Technologies, could void the user's authority to operate the equipment.

CAUTION:

Only use Symbol approved and UL Listed accessories, battery packs and battery chargers.
Do NOT attempt to charge damaged or wet mobile computers or batteries. All components must be dry before connecting to an external power source.
This guide is available in local languages. Translations can be downloaded from the following website: <http://www.symbol.com/services/manuals/>.

Power Supply

Use only a Symbol approved power supply (60-1400-147) (output rated 5A VDC and minimum 3A). The power supply is certified to EN60950-1 with SELV outputs. Use of alternative power supply will invalidate any approval given to this device and may be dangerous.

Country Approvals

Regulatory markings are applied to the device signifying the radio (s) are approved for use in the following countries: United States, Canada, Australia, Japan and Europe 12.

Please refer to the Symbol Declaration of Conformity (DoC) for details of other country markings. This is available at <http://www2.symbol.com/doc/>.

Note 1: For 2.4GHz Products Europe includes, Austria, Belgium, Czech Republic, Cyprus, Denmark, Estonia, Finland, France, Germany, Greece, Hungary, Ireland, Iceland, Italy, Latvia, Liechtenstein, Lithuania, Luxembourg, Malta, Netherlands, Norway, Poland, Portugal, Slovak Republic, Slovenia, Spain, Sweden, Switzerland and the United Kingdom.

Note 2: The use of 50Hz RF LANs has varying restrictions of use, please refer to the Symbol Declaration of Conformity (DoC) for details.

Operation of the device without regulatory approval is illegal.

Health and Safety Recommendations

Ergonomic Recommendations

Caution: In order to avoid or minimize the potential risk of ergonomic injury follow the recommendations below. Consult with your local Health & Safety Manager to ensure that you are implementing a program to prevent employee repetitive injury.

- Reduce or eliminate repetitive motion
- Maintain a natural position
- Reduce or eliminate excessive force
- Keep objects that are used frequently within easy reach
- Avoid awkward postures
- Reduce or eliminate vibration
- Reduce or eliminate direct pressure
- Provide adjustable workstations
- Provide adequate clearance
- Avoid working in a hot or cold environment
- Improve work procedures.

Vehicle Installation

RF equipment should be properly installed or inadequately shielded electronic systems in motor vehicles including safety systems). Check with the manufacturer or its representative regarding your vehicle. You should also consult the manufacturer of any equipment that has been added to your vehicle.

An air bag inflates with great force. DO NOT place objects, including either installed or portable wireless equipment, in the area between the air bag and the occupant. If in-vehicle wireless equipment is improperly installed and the air bag inflates, the injury could result.

Position your device within easy reach. Be able to access your device without removing your eyes from the road.

Note: Connection to an alert device that will cause a vehicle horn to sound or lights to flash, on receipt of a call on public roads, is not permitted.

Safety on the Road

Do not take notes or use the device while driving. "Jotting down a "to do" list or flipping through your address book takes attention away from your primary responsibility, driving safely.

When driving a car, driving is your first responsibility - Over full attention to driving. Check the laws and regulations in your country. When using a wireless device behind the wheel of a car, practice good common sense and remember the following tips:

1. Get to know your wireless device and any features such as speed dial and redial. If available, these features help you to place your call without taking your attention off the road.
2. When available, use a hands free device.
3. Let the person you are speaking with know you are driving. If necessary, suggest the call in heavy traffic or hazardous weather conditions. Rain, sleet, snow, ice, and even heavy traffic can be hazardous.
4. Dial sensibly, and assess the traffic; if possible, place calls when you are not moving or before pulling into traffic. To plan calls when your car will be stationary, if you need to make a call while moving, dial only a few numbers, check the road and your mirrors, then continue.

5. Do not engage in stressful or emotional conversations that may be distracting. Make people you are talking with aware you are driving and suspend conversations that have the potential to divert your attention from the road.
6. Use your wireless phone to call for help. Dial the Emergency services, (9-1-1 in the US, and 1-12 in Europe) or other local emergency number in the case of fire, traffic accident or medical emergencies. Remember, it is a free call on your wireless phone! The call can be made regardless of any security codes and depending on a network, with or without a SIM card inserted.

Use your wireless phone to help others in emergencies. If you see an auto accident, crime in progress or a traffic emergency where lives are in danger, call the Emergency Services, (9-1-1 in the US, and 1-12 in Europe) or other local emergency number, as you would want others to do for you.

8. Call roadside assistance or a special non-emergency wireless assistance number when necessary. If you see a broken-down vehicle posing no serious hazard, a broken traffic signal, a minor traffic accident where no one appears injured, or a vehicle you know to be stolen, call roadside assistance or other special non-emergency wireless number.

"The wireless industry reminds you to use your device / phone safely when driving."

Warnings for Use of Wireless Devices

Please observe all warning notices with regard to the usage of wireless devices.

Potentially Hazardous Atmospheres

Some environments contain conditions on the use of radio devices in fuel deposits, chemical plants etc. and areas where the air contains chemicals or particles such as grain, dust, or metal powders) and any other area where you would normally be advised to turn off your vehicle engine.

Safety in Aircraft

Switch off your wireless device whenever you are instructed to do so by airport or airline staff. If your device offers a "flight mode" or similar feature, consult airline staff as to its use in flight.

Safety in Hospitals

Wireless devices transmit radio frequency energy and may affect medical electrical equipment. Wireless devices should be switched off whenever you are requested to do so in hospitals, clinics or healthcare facilities. These requests are designed to prevent possible interference with sensitive medical equipment.

Pacemakers

Pacemaker manufacturers recommend that a minimum of 15cm (6 inches) be maintained between a handheld wireless device and a pacemaker to avoid potential interference with the pacemaker. These recommendations are consistent with independent research and recommendations by Wireless Technology Research.

Precautions with Pacemakers:

Should ALWAYS keep the device more than 15cm (6 inches) from their pacemaker when turned ON. Should not carry the device in a breast pocket. Should use the ear furthest from the pacemaker to minimize the potential for interference. If you have any reason to suspect that interference is taking place, turn OFF your device.

Hearing Aids

The wireless device may interfere with some hearing aids. In the event of interference you may want to consult your hearing aid supplier to discuss solutions.

Other Medical Devices

Please consult your physician or the manufacturer of the medical device, to determine if the operation of your wireless product may interfere with the medical device.

FCC / EU RF Exposure Guidelines

Safety Information

The device complies with internationally recognized standards covering Specific Absorption Rate (SAR) related to human exposure to electromagnetic fields from radio devices.

It is advisable to use the device only in the normal operating position.

Reducing RF Exposure - Use Properly

Phones placed to ear or used with headset)
Use only Symbol headset and approved belt-clip, holsters, and similar accessories to ensure FCC Compliance. The use of third-party belt-clips, holsters, and similar accessories may not comply with FCC RF exposure compliance requirements, and should be avoided. The FCC has granted an Equipment Authorization for these model phones with all reported SAR levels evaluated as in compliance with the FCC RF exposure guidelines. SAR information of the device can be found on file with the FCC and can be found under the Display Guard section of <http://www2.symbol.com/doc/>.

Co-located Statement

In compliance with FCC RF exposure compliance requirement, the antenna used for this transmitter must not be co-located or operating in conjunction with any other transmitter/antenna except those already approved in this filing.

Laser Devices

Complies with 21CFR1040.10 and 1040.11 except for deviations pursuant to Laser Notice No. 50, dated July 26, 2001.

FEDERAL REGISTER, Vol. 66, No. 130, 1307-1309

1991-07-26, 1991-07-26, 1991-07-26

The laser classification is marked on one of the labels on the device.
Class 2 laser scanners use a low power, visible light diode. As with any very bright light source, such as the sun, the user should avoid staring directly into the light beam. Momentary exposure to a Class 2 laser is not known to be harmful.

Scanner Labeling

COMPLIES WITH 21CFR1040.10 AND 1040.11 EXCEPT FOR DEVIATIONS
PURSUANT TO LASER NOTICE NO. 50, DATED JULY 26, 2001, AND
EN60825-1:1994+A1:2002, A2:2001, IEC60825-1:1995+A1:1997+A2:2001

Radio Frequency Interference Requirements

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used properly, it may cause interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reposition or reorient the receiving antenna
- Increase the separation between the equipment and receiver
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected
- Consult the dealer or an experienced radio/TV technician for help.

Radio Transmitters (Part 15)

The device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Radio Frequency Interference Requirements - Canada

This Class B digital apparatus complies with Canadian ICES-003.
Cet appareil numérique de la classe B est conforme à la norme NMB-003 du Canada.

Radio Transmitters

The device complies with RSS 210 of Industry & Science Canada. Operation is subject to the following two conditions: (1) this device may not cause harmful interference and (2) this device must accept any interference received, including interference that may cause undesired operation.

Label Marking: The term "IC" before the radio certification only signifies that Industry Canada technical specifications were met.

Country Roaming

This device incorporates the International Roaming feature (IEEE802.11d) which will ensure the product operates on the correct channels for the particular country of use.

Ad-Hoc Operation

Ad-Hoc operation is limited to Channels 36-48 (5.150-5.250 MHz). Use of this band is restricted to Indoor Use Only, any other use may make the operation of this device illegal.

Bluetooth® Wireless Technology

This product contains Bluetooth Complimentary Subsystems:

BT ID-B01825
BT ID-B01213

CE Marking and European Economic Area (EEA)

This device is a Class 2, 2.4GHz, RF LANs, for use through the EEA, have the following restrictions:

- Maximum radiated transmit power of 100 mW ERP in the frequency range 2,400 -2,4835 GHz
- France, outside usage is restricted to 2.4 - 2.454 GHz.
- Italy requires a user license for outside usage.

The use of 50Hz RF LANs has varying restrictions for use within the EEA, please refer to the Symbol Declaration of Conformity (DoC) for details at <http://www2.symbol.com/doc/>.

Bluetooth® Wireless Technology for use through the EEA has the following restrictions:

- Maximum radiated transmit power of 100mW ERP in the frequency range 2,400 -2,4835 GHz
- France, outside usage is restricted to 100mW ERP
- Italy requires a user license for outside usage.

Statement of Compliance

Symbol Technologies, Inc., hereby declares that this device is in compliance with the essential requirements and harmonized standards of Directive 1999/5/EC. A Declaration of Conformity may be obtained from <http://www2.symbol.com/doc/>.

Other Countries

Mexico - Restricted Frequency Range to: 2,450 - 2,4835 GHz

Sri Lanka-Restrict Frequency Range to: 2,400 - 2,430 GHz.

Waste Electrical and Electronic Equipment (WEEE)
