

To: Intertek TCB

We hereby confirm that the LCU NEMA PRO include radio module TNET210, FCC ID NTAT210, hardware, software are not changed.

The difference is in antenna.

The antenna's type is printed antenna, gain of antenna is 0dBi.

Note, there is no change of EIRP output power, so RF Exposure calculation for TNET 210 module is relevant.

Dr. Slava Snitkovski
