Safety Precautions

To use this headset correctly and safely, please read this manual carefully before use and save it.

Precautions

1. Please control the volume and time when using the headphones.  
2. Do not use the headset in a potentially hazardous environment to ensure safety.  
3. Try to avoid using headphones to listen to music while driving, making or receiving calls, distracting and posing a danger.  
4. Keep the headphones out of reach of children to avoid danger from improper use.  
5. Avoid cleaning the headphones when washing, so as not to damage the sound quality of the headphones or headphones.  
6. Try to avoid continuously increasing the volume, so that you can't hear the surrounding sound. If you have tinnitus or turn the volume too high, please adjust to the appropriate volume.  
7. If you feel obvious discomfort when using headphones, have a irritating feeling or other adverse reactions, please stop the month immediately.  
8. Avoid storing or using the headset in an environment where the temperature is below -15 ° C ( 5 F) or above 55 ° C ( 131 F), otherwise the headset or battery life may be shortened.

Warning

1. The headset must be charged with the matching charging cable. Using an unsuitable charging cable may damage the headset, and the DC voltage must be 5V and the current is greater than 100mA (5V/100mA).  
2. This headset uses a built-in non-removable rechargeable battery. Do not attempt to remove the battery from the headphones to avoid damaging the headphones.

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation.

If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Warning: changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment

The devices has been evaluated to meet general RF exposure requirement , the device can be used in portable exposure condition without restriction
