<div><div>CAUTION</div><div><ol style="list-style-type: none">1. Please check whether the charged device is compatible with the product voltage firstly.2. Before using the wireless charger, please check if there is a metal object covering the back of the phone. When there is a metal piece or material obstructing the back of the phone you want to charge, the wireless charger will start up the FOD foreign object detection function and the phone will not be charged normally.3. To ensure safety and efficiency, it is strongly recommended to use the original charging cable or a third-party certified charging cable to power the device.4. Only for indoor use and in dry environment, avoid using in high temperature, humidity and oily environment. Do not use when wet, and the product away from fire.5. Keep the product away from strong magnetic fields.6. Avoid placing it in reach of infants and children.7. Non-professionals are not allowed to disassemble and repair this product without authorization.</div></div>	<div><div>FEATURES</div><div><ol style="list-style-type: none">1. Multi-functional fast wireless charging for compatible phones, AirPods and Apple Watch. Charge 3 devices at once. The charger will automatically identify the device and charge at the maximum wireless charging speed.2. Separately configure a 20W+ adapter to supply power for the entire charging base for fastest charging speed.3. Because our convenient design, the charging cables for AirPods and Apple Watch are hidden in the casing. The stand is perfect for a distraction-free workspace.4. The mobile phone wireless charging coil is smartly located away from the device's heat source to improve the charging efficiency. It can be wirelessly charged in upright or landscape position, equally fast.5. Designed for AirPods and Apple Watch. The base is compatible with both new and old AirPods and allows for easy operation of your watch while mounted.6. Built-in magnetic isolation of the wireless charging coil, increases the effect of the magnetic attachment. The electronic circuit is equipped with safety features; over-voltage protection, input over-current protection, output over-current protection, anti-ripple, short circuit protection, anti-electromagnetic protection and anti-static protection. Charge safer!</div></div>	<div><div>HOW TO USE</div><div><ol style="list-style-type: none">1. Connect the power supply and the red light will turn on2. When charging, the blue light is always on3. When metal foreign objects are placed in the wireless charging area or other errors occur, the red & blue light flashes</div><div><div><div>Apple Watch Charging Pad</div><div>Phone Wireless Charging Pad</div><div>Multi-Purpose Wireless Charging Pad</div><div>Type C Port</div></div></div></div>	<div><div><p>©2024 JME & Co.
