
Class II Permissive Change Letter

October 19, 2018
MSBD-18-F004

Federal Communications Commission
Authorization and Standards Division
7435 Oakland Mills Road
Columbia, MD 21046 USA

Subject: Class II Permissive Change Application for Panasonic Single Modular,
Model WW18A under FCC ID: ACJ9TGW18A Certified Under FCC Parts 22H, 24E, 27 and 90
For Installation within Panasonic Personal Computer, Model CF-33 (mk1 series)

To whom it may concern:

Pursuant to CFR§2.1043, Panasonic Corporation of North America hereby requests a Class II Permissive Change for its application with FCC ID: ACJ9TGW18A.

This authorization only covers the Class II permissive change application for the following changes:

- Output power setting was reduced from 23.8 dBm to 23 dBm by firmware change in LTE B7 and B41 to be equipped into the Panasonic PC.
- Mobile to Portable Classification due to Installation into Panasonic PC (Model: CF-33)
- This module used in the Host PC CF-33 has the power reduction mode which is specially programmed and tuned by proximity sensor to operate at a lower power setting than the original maximum power to ensure that the output power does not exceed the targets described in the SAR report.
- Collocation with Wireless Module Model: WL16A with pre-existing FCC ID: ACJ9TGW16A, whose SAR test data is included in this application.
- The Host PC CF-33 doesn't support LTE band 30 which is disabled by Software at the factory.
- No other radio parameters have been changed.

Sincerely,

Ben Botros
Project Manager
Panasonic Corporation of North America
Product Safety & Compliance Department
