Dear Mr. Ward:

Below you will find the information that was requested in your letter on September 2, 2005. All items concur with the numbered questions in your letter.

1. The revised 731 form is uploaded to ATCB website
2. FYI- no action needed
- 3,4,5,6. Confidential status changed according to the revised confidentiality request letter. The revised letter is uploaded to ATCB website also.
7. The test Signal generator HP651B was connected to the audio input of the EUT. The fundamental frequency is modulated by 1.13 kHz sinewave with input level equals to the limiting threshold 552mV p-p.
8. FYI- no action needed

We appreciate how thorough your comments were on this submission. We apologize for the prior errors, but feel the updated documents provided address these issues.

Sincerely,

A handwritten signature in black ink, appearing to read "Leon Kogan".
