Modular Approval Request

FCC ID: XPYSARAU260

The following attestation addresses the requirements to support modular approval:

Modular approval requirement	Yes (provide brief statement)	No *
(a) The radio elements must have the radio frequency circuitry shielded. Physical components and tuning capacitor(s) may be located external to the shield, but must be on the module assembly	YES The radio portion of the module has its own RF shielding.	
(b) The module must have buffered modulation/data inputs to ensure that the device will comply with Part 15 requirements with any type of input signal	YES The module has a memory management unit inside of the IC. It buffers the data inputs.	
(c) The module must contain power supply regulation on the module	YES The IC contains an own voltage regulation. In case of changes in the supply voltage VCC (for example caused by temperature changes or other effects), the internal voltage will be stabilized.	
(d) The module must contain a permanently attached antenna, or contain a unique antenna connector, and be marketed and operated only with specific antenna(s), per Sections 15.203, 15.204(b), 15.204(c), 15.212(a), 2.929(b)	YES The modular transmitter has a permanently attached antenna.	
(e) The module must demonstrate compliance in a stand-alone configuration	YES The module was tested in a stand-alone configuration.	

(f) The module must be labelled with its permanently affixed FCC ID label, or use an electronic display (See KDB Publication 784748 about labelling requirements)	YES The module is compliant with all applicable FCC rules for device labeling.	
(g) The module must comply with all specific rules applicable to the transmitter. The grantee must provide comprehensive instructions to explain compliance requirements	YES The device has been assessed for mobile use and complies with all rules applicable to the transmitter.	

Modular approval requirement	Yes (provide brief statement)	No *
(h) The module must comply with RF exposure requirements	YES The device has been tested for mobile use and complies with RF exposure limits.	

* Please provide a detailed explanation if the answer is "No."

Yours sincerely,

Name: Jason Hicks
