#99203 – VEHICLES WALKIE TALKIE

Product : 4 TRANSISTORS VEHICLES WALKIE TALKIES

Model : 99203

Responsible Party : 602 Edgemoor Hopkins
MN. 55305, USA.

Phone : 1-800-567-1774

Power Source

1 x 9V Batteries (not included)

To install and replace the battery

- 1) Unscrew and open the battery door under the vehicle with a screwdriver
- 2) Install 1 x 9V Battery with the correct polarity
- 3) Replace the battery door and tighten the screw

Caution:

1. Your transceiver set has been fully adjusted prior to shipment from the factory. Be sure not to touch the internal components other than replace batteries
2. When the sound becomes weak, it is time to change the battery
3. After use, always turn the “Vol/Off “ switch button to off position (at the back of vehicles)
4. Keep your set in a dry and clean place

Walkie Talkie Operation

- Open battery cover and snap in a 9 volt battery
- Switch on “Vol/Off” switch at the back of vehicle. Your transceiver is now ready to operate
- Always pull extendable antenna to the max length in order to have best reception
- Press “Code Key” (the right car light) & “Talk” (the left car light) for ringing another walkie talkie
- Press “Talk” (the left car light) to transmit
- Release “Talk” (the left car light) to receive
- When transmitting, speak in a clear voice with the microphone about 3 inches (7.5 cm) from your mouth

- Best transmission and reception is achieved when the antenna is held in a vertical position

How to use Morse Code Function:

- Switch on the Vehicles Walkie Talkie
- While pushing the "Talk" (the left car light), press in the "Morse Code" (the right car light) momentarily and release for desired signal length
- When back to voice communications again, use normal "Talk" operation

The users manual or instruction manual for an intentional or unintentional radiator shall caution the user that changes or modifications not expressly approved by the party responsible for statement that will be placed in the User Manual to be the following wording: "Modifications not authorized by the manufacturer may void users authority to operate this device"

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.
- When back to voice communication again, use normal "Talk" operation.

Precaution:

Non-Rechargeable batteries are not to be recharged

Rechargeable batteries are to be removed from the radio before being charged (if removable)

Rechargeable batteries are only to be charged under audit supervision

Only batteries of the same or equivalent type as recommended are to be used

Batteries are to be inserted with the correct polarity

Exhausted batteries are to be removed from the radio
